

Project Overview

As of September 17, 2015

Reeb Avenue Center

Description:

Construction of a new 15,670 S.F. building addition for South Side Learning and Development along with a 51,895 S.F. building renovation to serve community needs with a mission to build a prosperous south side community that seeks to empower education and opportunity. The vision is a hub of hope. Values of the center are lift up, learning, legacy, leadership and love. The tenants and partners will create programs that teach and inspire from cradle through career to create opportunities, increase prosperity and move the neighborhood and families forward.
