SA005455 - UTILITY BILL MANAGEMENT SERVICES RFP

BID NOTICES - PAGE # 4

THE CITY BULLETIN
BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

Scope: The City of Columbus, Ohio Department of Finance and Management, Purchasing Office, is seeking Request for Proposals (RFPs) to provide the City with a Universal Term Contract (UTC) for Utility Bill Management Services. The City of Columbus desires proposals for initial implementation of electricity bill management with possible future expansion into other utility types for the same locations. The City is seeking proposals incorporating competitive pricing that will supply a consolidated data set of all billing information to be interfaced with other third party analytics currently owned by the City. The City of Columbus has approximately 250 billing locations that will be included in any resulting contract. Proposals must also include providing expert advice and technical assistance for a Utility Bill Management program. The contract term shall extend through March 31, 2016 and may potentially be extended one (1) additional year.

Classification: The successful offeror will be responsible for converting current paper utility bills into a transferable data form for the City. The City will also consider proposals which include offeror payment of utility bills and reimbursement from the City. Offerors are encouraged to submit proposals that demonstrate their competence, ability, past performance, quality and feasibility, cost, and environmental impact as defined in this request.

Specification Questions: Questions regarding this bid must be sent by in writing via email to vendorservices@columbus.gov no later than 11:00 a.m. (local time) on Monday, June 9, 2014. Responses will be posted as an addendum to this bid on the City's website (vendorservices.columbus.gov) no later than 11:00 a.m. (local time) on Thursday, June 12, 2014. See section 3.2.2.1 for additional details.

For additional information concerning this bid, including procedures for obtaining a copy of the bid document(s) and how to submit a proposal, you must go to the City of Columbus Vendor Services web page (<http://vendorservices.columbus.gov>) and view this bid number in the open solicitations listing.

SA005474 - Medical and RX Benefit Administration

THE CITY BULLETIN
BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

1.1 Scope: It is the intent of the City of Columbus, Department of Human Resources, to obtain formal bids to contract with a Third Party Administrator (s) to administer the City's medical and prescription drug insurance February 1, 2015 through January 31, 2018.

1.2 Classification: The City of Columbus intends to contract with qualified companies who can provide Employee Benefit Administration Services for its medical and prescription drug plans.

The contractor or contractors must at a minimum provide the following services: process medical and prescription drug insurance claims for the City's self-insured fund, enrollment services, customer service unit, case management review, network management services, management reports, an appeals process, billing services, prepare and distribute claims checks, actuarial functions, plan pre-authorization services, disease management and all related record-keeping.

The contractor(s) must be able to duplicate the City's current benefit plans and services as set forth in six (6) labor negotiated contracts and the one salary ordinance plan, the City's Benefit Booklets, and United Healthcare's internal claim processing documents (IBaggs). If you do not agree, you must indicate every deviation.

The City is interested in one administrator for its medical plan to administer its PPO and fee-for-services plan for the non-PPO labor group (fire only), and one administrator for its prescription drug plan.

The City is not interested in a Medical Point of Service Plan with gatekeeper or HMO option at this time.

The City has five labor negotiated employee groups and one salary ordinance group. The City seeks health benefit administrator(s) for each of its two lines of business: Medical, and Prescription Drug. Refer to section 1.2 Classification.

If Offerors submit proposals for both medical and prescription drug, Offerors must submit separate binders for each and CLEARLY identify the line(s) of business they are offering.

For additional information concerning this bid, including procedures for obtaining a copy of the bid document(s) and how to submit a proposal, you must go to the City of Columbus Vendor Services web page (<http://vendorservices.columbus.gov>) and view this bid number in the open solicitations listing.

SA005467 - Roadway Imps - Downtown Standards Update

City funded Professional Services Ad

1.1 Scope: The City of Columbus, Department of Public Service is receiving proposals until 1:00 P.M. local time, July 10, 2014, for professional engineering consulting services for the Roadway Improvements - Downtown Standards Update. Proposals are being received electronically by the Department of Public Service, Office of Support Services. Proposals shall be submitted to DPSRFP@columbus.gov.

This project involves the development of a comprehensive set of standards addressing all improvements within the right-of-way, including but not limited to streets, sidewalks, street furniture, landscaping, and stormwater; as well as screening of private property. This project builds on the Columbus Downtown Streetscape Plan (adopted in 2000), the Downtown Columbus Strategic Plan (adopted in 2010), which defined general street typologies and determined streets to which those typologies would be applied, and street specific standards based on recently constructed projects. The final deliverable will be adopted by Columbus City Council following public engagement and review/recommendation by City commissions.

The selected Consultant shall attend a scope meeting anticipated on or about July 30, 2014. If the Project Manager is not available, the Consultant may designate an alternate to attend in their place.

1.2 Classification: Firms wishing to submit a proposal must meet the mandatory requirements stated in the RFP. All questions concerning the RFP are to be sent to capitalprojects@columbus.gov. The last day to submit questions is June 30, 2014. Responses will be posted on the Vendor Services web site as an addendum. Phone calls will not be accepted.

July 17, 2014, for professional engineering consulting services for the Arterial Street Rehabilitation - Hamilton Road from SR 161 to Morse Road - Phase A project. Proposals are being received electronically by the Department of Public Service, Office of Support Services. Proposals shall be submitted to DPSRFP@columbus.gov.

This project includes completion of the Project Development Process (PDP) for the first of multiple phases of improvements to the N. Hamilton Road corridor from Morse Road to SR-161 and intersecting arterial roadways, Morse Road and Dublin-Granville, geared to increase vehicular capacity, extend bikeway facilities, and complete gaps in the pedestrian system.

Preliminary engineering is nearly complete. Remaining preliminary engineering work includes survey and geotechnical for the Morse Road limits.

In addition, because federal funding for the project is being sought, work is also anticipated to include cultural resources environmental for the Morse Road limits; submittal to ODOT for Certification of Traffic; and additional environmental work for the entire corridor such as Air Quality Analysis, Noise Analysis, and ESA Phase 1. To accommodate the federal funding possibilities, the project will be developed in accordance with the PDP (Path 3). Construction funding is anticipated to be spread over two years. As such, two separate packages of construction plans and bid documents will be developed. The split between the two parts will be determined during the early stages of design, prior to Stage 1 plan development, with a goal of creating two packages relatively equal in cost.

The selected Consultant shall attend a scope meeting anticipated on or about August 1, 2014. If the Project Manager is not available, the Consultant may designate an alternate(s) to attend in his/her place.

1.2 Classification: Firms wishing to submit a proposal must meet the mandatory requirements stated in the RFP. All questions concerning the RFP are to be sent to capitalprojects@columbus.gov. The last day to submit questions is July 10, 2014. Responses will be posted on the Vendor Services web site as an addendum. Phone calls will not be accepted.

SA005488 - ENG:WOODWARD AV/MEEKLYNN DR SANITARY SWR

THE CITY BULLETIN
BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

SCOPE: The City of Columbus, Ohio is inviting professional engineering consulting firms, or teams including such firms, to submit Proposals to furnish professional services for the City of Columbus, Department of Public Utilities, Division of Sewerage and Drainage (DOSD), for Capital Improvements Project Number 650570-100000 - WOODWARD AVENUE SANITARY SEWERS and CIP 650890-100000 MEEKLYNN DRIVE SANITARY SEWER pursuant to Columbus City Code 329.14. Proposals will be received at the Division of Sewerage and Drainage, 1250 Fairwood Avenue, Room 1021, Columbus, Ohio 43206 until 4:30 P.M. on Friday, July 25, 2014.

General Project Descriptions

CIP 650570 - WOODWARD AVENUE SANITARY SEWER

The City desires to provide new sanitary sewer service to a defined residential area that is currently served by on-lot home sewage treatment systems (HSTS). This project will investigate, design, and prepare construction drawings to extend existing sanitary sewers and provide new residential sanitary service taps for 14 existing homes which are served by HSTS systems along Woodward Avenue. The City has performed video inspection of the existing storm sewers in the area and has found evidence of sanitary discharge within the storm system. This project is located on the east side of Columbus along Woodward Avenue between Brentnell Avenue and Sunbury Road. The City wishes to utilize existing easements and/or existing road right of way for the new sanitary sewer(s) to minimize time to construction. However, a task to acquire easements has been included in the Project Scope and shall only be performed if authorized by the City. The selected consultant will need to coordinate the proposed sanitary sewer extensions with the consultant that designed storm sewers for this same area under CC-15722. Final construction plans for this storm improvement project were placed on hold due to the found sanitary problems.

The consultant shall prepare a possible BCE case evaluation and a design report for the City which contains estimated costs to provide sanitary sewer service to this area. Upon successful review of the reports, the consultant will then prepare construction documents and plans to provide sanitary sewers for this area. The consultant may propose alternate design ideas that are shown to be cost effective and based on sound and proven engineering principles.

CIP 650890 - MEEKLYNN DRIVE SANITARY SEWER

The City desires to provide new sanitary sewer service to a defined residential area that is currently served by on-lot home sewage treatment systems (HSTS). This project will investigate, design, and prepare construction drawings to extend existing sanitary sewers and provide new residential sanitary service taps for 20 existing homes which are served by HSTS systems. This project is located on the northwest side of Columbus along Meeklynn Drive between Linworth Road and Olentangy River Road. The City wishes to utilize existing easements and/or existing road right of way for the new sanitary sewer(s) to minimize time to construction. However, a task to acquire easements has been included in the Project Scope and shall only be performed if authorized by the City. The selected consultant will need to coordinate the proposed sanitary sewer extensions with the consultant that designed storm sewers for this same area under CC-15573. Final construction plans for this storm improvement project were placed on hold due to the found sanitary problems.

The consultant shall prepare a possible BCE case evaluation and a design report for the City which contains estimated costs to provide sanitary sewer service to this area. Upon successful review of the reports, the consultant will then prepare construction documents and plans to provide sanitary sewers for this area. The consultant may propose alternate design ideas that are shown to be cost effective and based on sound and proven engineering principles.

BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

General Design Requirements

The lead Consultant shall be responsible for all work necessary to establish and/or verify existing tributary area conditions; proposed sanitary design flows in existing and extended sewer systems impacted by this improvement; securing existing plan information; perform additional investigations as required to design this improvement; prepare required hydraulic calculations; summarize all preliminary design findings, investigations, and recommendations into a possible BCE report and a final Letter Report; collect all necessary site survey information; prepare construction drawings, cost estimate(s), specifications, and bid documents; investigate need for and document all required construction permits (such as zoning, electrical, building, regulatory (EPA, City, etc.); prepare, submit, and secure all such construction permits; review construction shop drawing submittals and associated documents during construction of this project.

The lead consultant shall submit a letter report, construction plans in CC drawing format, specification documents, and complete all project tasks (excluding construction phase) for this project within 365 days after the notice to proceed is issued.

The lead Consultant shall submit information to document prior experience and qualifications of the Design Team members. The team shall have previous experience in the design of sanitary and storm sewer systems. Team members shall be capable of submitting observations and/or recommending design changes for efficient sanitary sewer design.

The team members shall research various alternatives and recommend the most economical and best solution to the City. The final project submittal will include the production of all design documents, drawings, specifications and contract documents required to construct the proposed facilities. This work shall also include utility conflict sewer redesign and shop drawing review services during construction.

Proposals will be reviewed by the City and the City will enter into contract negotiations with the two (2) highest ranked offerors. Each successful offeror shall receive a single project. If negotiations fail with an offeror they shall be terminated and the City will enter into contract negotiations with the next highest ranked offeror. This process will continue until both contracts are successfully negotiated.

Forfeiture of deposits is not the only remedy the City has under law for failure to return the bidding documents. Noncompliance will cause violating plan holder to be placed on a watch-list to alert other City Departments of bid process issues.

All materials submitted in response to this advertisement will become part of the awarded contract; will become the property of the City and will not be returned; and will be considered public records subject to disclosure as contemplated by Ohio Revised Code Section 149.43. All materials received will be open to the public once the sealed proposals are publicly opened and read.

PROPOSAL GUARANTY

THE CITY BULLETIN
BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

The bidder is required to submit a Proposal Guaranty, in the form of a Proposal Bond or Certified Check, with a surety or sureties licensed to conduct business in the State of Ohio. The amount of the guaranty shall be five (5) percent of the bid amount or numerically in dollars and cents, including all alternates submitted which increases the amount of the bid. All bonds signed by an agent must be accompanied by a surety power of attorney, most recent surety financial statement, and current Ohio Department of Insurance Certificate of Compliance.

PREVAILING WAGE RATE

Bidders must comply with the prevailing wage rates on Public Improvements in Franklin County and the City of Columbus, Ohio as determined by the Ohio Bureau of Employment Services, Wage and Hour Division (614) 644-2239.

CONTRACT PERFORMANCE AND PAYMENT BOND

A contract performance and payment bond in the amount of 50 percent of the contract price with a surety or sureties licensed to conduct business in the State of Ohio will be required to assure the faithful performance of the work. All bonds signed by an agent must be accompanied by a surety power of attorney, most recent surety financial statement, and current Ohio Department of Insurance Certificate of Compliance.

PRE-BID CONFERENCE AND SITE VISIT

There will be a mandatory pre-Bid conference held at the Second Floor Conference Room, Dublin Road Water Plant, 940 Dublin Road, Columbus, Ohio, on June 18, 2014 at 9:00 A.M. Following the pre-Bid conference, the CMT will conduct an overview of the sequencing of work and a tour will be given to allow Bidders to inspect the project areas and facilities.

1. Bidders who are preparing bids as prime contractors are required to attend the conference.
2. The City will reject the proposal of any bidder who fails to attend the pre-Bid conference.
3. Attendees at the pre-Bid meeting tours are required to wear hard hats, safety glasses and safety shoes.

CONTRACT COMPLETION

The contract time between Notice to Proceed and Final Completion is 1098 calendar days.

VENDOR OUTREACH

Bidders who are preparing bids as prime contractors are strongly encouraged to participate in a Pre-Bid vendor Workshop held Wednesday, June 18, 2014, at 1:00 P.M. at Auditorium and Library, 910 Dublin Road, Columbus, Ohio. The purpose of this vendor workshop is to provide interested subcontractors the opportunity to meet with the prospective prime contractors.

BID CANCELLATION AND REJECTIONS

The Director of Public Utilities may cancel the Advertisement for Bids, reject any or all bids, waive technicalities, or hold bids for a period of 240 days after the bid opening, and/or advertise for new bids, without liability to the City.

CONTRACT COMPLIANCE REQUIREMENTS

The City of Columbus encourages the participation of city certified minority and female business enterprises. While participation of and/or partnering with city certified minority and female owned businesses is not a condition of bid award, it is strongly encouraged. Bidders will receive, with the bidding documents, a CD with a list of certified City of Columbus Minority and Female Business Enterprises (M/FBE) vendors/contractors sorted by trades associated with this project.

Bidders will be given seven (7) business days after the bid submittal date to update expired contract compliance information for renewal of numbers or to initially apply for a number. If said information has not been updated within seven (7) business days from the bid submittal date, the bid/proposal will be deemed non-responsive and will no longer be considered.

All CONTRACTORS and subcontractors who are party to a contract as defined in Columbus City Code 3901.01, must hold valid contract compliance certification numbers before the contract is executed.

Columbus Recreation and Parks Permit and Rental Services Section

Revised

Administrative Rules for private boat docks and stakes on City Reservoirs (not to include boat club leased properties):

Columbus City Code, section 921.01-8 (O)(1) provides that: **“The Recreation and Parks Commission may adopt administrative rules for floating boat dock construction, maintenance and other privileges pertaining to the use of undeveloped city parkland. Violation of administrative rules shall result in the temporary or permanent revocation of docking privileges and/or impoundment of vessel(s) and removal of associated structures on parkland.”** Pursuant to the above-mentioned authority, the Recreation and Parks Commission does hereby approve and adopt the following administrative rules listed below.

These Administrative Rules shall be effective thirty days after being approved and signed by the Recreation and Parks Commission and the Director of the Recreation and Parks Department and published in the City Bulletin. These Rules may be superseded by an act of City Council.

Existing authorized docks exceeding any applicable design limitations as specified in these rules, may continue to be authorized until such time as the contiguous property owner either (i) fails to **renew the annual permit** or (ii) **transfers title to the property**.

The Recreation and Parks Department reserves the right to require general liability insurance naming the City of Columbus as an addition insured from private dock, stake, or mooring customer with at least a ninety (90) day notice.

As used in these Rules, the following definitions shall apply:

1. Abandoned - means any personal property, including a dock or other structure, that has remained on or attached to City property for at least 48 hours that does not have a valid dock permit, or is extensively damaged, or is considered a navigational hazard, regardless of whether it is being actively used by a contiguous property owner.
2. Header dock - The primary structure of a floating dock. The section of dock in which other dock sections or a ramp is attached to.
3. Finger dock - A secondary dock extension from the header dock.
4. Mooring - buoy or float providing a tie off for a boat, set to an anchor to hold the boat secure.
5. Ramp - The section of the dock that connects the floating portion of the dock to the shore (some docks may be on feet or wheels).
6. “I” Dock - For purposes of these administrative rules, an “I” dock shall mean a dock extending from shore in a straight line, generally perpendicular to the shoreline, with no sections attached to the header dock.
7. “T” Dock - For purposes of these administrative rules, a dock generally consisting of a header dock with a finger dock attached in the shape of a “T”, or can be an inverted “T” shape.
8. “L” Dock - For purposes of these administrative rules, an “L” dock is a dock shaped like an “L”, with one side being the header dock and the other side a finger dock, and can be placed in several positions according to need or preference.

9. “U” Dock - For purposes of these administrative rules, a “U” dock consists of a header dock generally parallel to the shore (but may be perpendicular), with at least two finger docks extending from the header dock into the shape of a “U”, “F”, “E” or similar type shape.
10. Platform Dock - For purposes of these administrative rules, a platform dock is a dock that is attached to shore by a ramp, and generally is described as a square or rectangular shape (although it may take different shapes), and can moor multiple vessels from respective sides.
11. Spuds - For the purpose of these administrative rules, spuds are defined as metal posts, no wider than 4” in diameter, inside a sleeve attached to the dock that stabilize the dock by use of friction against the riverbed and not by being driven, drilled, augured or pushed into the riverbed. The “foot” end of the spud (the portion against the river bottom) must be capped or otherwise closed and not be an open pipe. Spuds should not have chisel shaped or pointed ends.
12. Stake - A metal or wood post, not to exceed four (4) inches in diameter, extending a minimum of four (4) feet and a maximum of six (6) feet above the ground, to secure a watercraft to shore.
13. Rip rap - The placement of rocks or other similar materials as approved by the Division of Power and Water in accordance with United States Army, Corps of Engineers regulations to prevent or reduce shoreline erosion.
14. Director - “Director” shall mean the Director of Recreation and Parks or his or her duly authorized designee.
15. Structure - “Structure” means a combination of materials, other than a building, to form a construction that is safe and stable including, but not limited to, docks, stadium, gospel or circus tent, reviewing stand, platforms, staging, observation tower, shed, coal bin, or fence in excess of six (6) feet in height. The term “structure” shall be construed as if followed by the words “or parts thereof.”
16. Building - “Building” means any structure having a roof supported by columns or walls, or any series of structures separated only by “fire separations” but contained under a common roof or within common walls, and requiring a building permit in accordance with Title 41 of the Building Code that is used for shelter, occupancy, enclosure, or support of persons, animals, or property.
17. Encroachment - “Encroachment” means any building, structure, or personal property that extends beyond the property line of a contiguous property owner and trespasses onto City owned or controlled property.

Administrative Rules:

- 1) Plans for new docks and stakes or for alterations to existing docks and stakes must be submitted to the Columbus Recreation and Parks, Permit and Rental Services Section. All structures must comply with the current City of Columbus Code (CCC 921.01-8), and all specifications authorized by the United States Army Corps of Engineers under federal regulation. When in conflict, whichever code is more restrictive takes precedence. In cases where private property meets the water’s edge, dock permits are still required pursuant to the following rules, as the City of Columbus regulates all City waterways. A valid Land Stewardship Agreement must be on file with the City of Columbus prior to the issuance of any dock or stake permit.
- 2) Plans for new docks and stakes or alterations to existing docks and stakes must include the following:
 - a) Plat plan of the property with the owner’s name and address and the proposed location of the dock or stake plainly marked.
 - b) Detailed plan of the dock illustrating:
 - i) Dimensions
 - ii) Materials
 - iii) Method of attachment to shore
 - iv) Proposed alterations
 - c) Proposed dates for construction and installation (which must be at least 10 business days later than the date of submission) are subject to the approval of the plan.
 - d) Requests for stairs, if necessary, must be included in the application (certain restrictions apply, see items 17 and 18).
- 3) The overall width of any section of any private floating dock may not be less than four (4) feet.
- 4) The overall width of any Finger dock may not exceed six (6) feet.

- 5) The overall width of any header dock may not exceed eight (8) feet.
- 6) The overall width of any platform dock may not exceed twelve (12) feet.
- 7) The overall width of any ramp section may not exceed eight (8) feet.
- 8) Flotation for the floating docks must meet or exceed Federal and Ohio Department of Natural Resources standards. Metal drums and plastic barrels are not permitted. Treated wood materials used for decking and/or walkways shall comply with Federal and State Environmental Protection Agency recommendations and regulations. All wooden materials should be free of any chemicals that are toxic to aquatic life. Lumber pressure-treated with Alkaline Copper Quaternary (AQC) process is very corrosive therefore special care should be used when selecting fasteners and hardware. (US ACOE Rule #3) Galvanized or plated hardware should be used in dock construction.
- 9) The dock (including any ramp, attachment(s) and including any vessel(s)) may not extend greater than forty (40) feet from the on shore platform or twenty five percent (25%) of the width of the channel at that point, whichever is less. The overall area of any dock, including any vessel(s) docked at that location, may not exceed twenty-six (26) feet in width (parallel to shore) The forty (40) feet will be the measurement of the length of the dock and ramp at the point it is attached to the landing platform or otherwise affixed to shore and not the distance it extends into the reservoir due to the angle of attachment.
- 10) The floating dock structure shall not have any walls or enclosed areas. An open sided canopy may be permitted provided that the overall height of the canopy structure does not exceed twelve (12) feet from the surface of the dock. Canopy covers must be metal, canvas, nylon or other fabric and no advertising may be displayed on the canopy.
- 11) As part of the floating dock permit there may be a landing platform area on shore, not to exceed eighty (80) square feet in size. The only purpose of this platform is to provide a secure structure to serve as an attachment point for the floating dock. No concrete, cement or mortar is permitted as part of this platform. This structure may not include any walls, roofs or other improvements except an approved handrail if desired. The landing platform shall be constructed at ground level unless the terrain is not even, then only elevated enough so that the platform may be level as close to the ground as possible. The landing platform may not extend over the water beyond the ordinary high water mark (as defined by the U.S. Army Corps of Engineers). The specific site of the landing platform will be determined by the Director based upon best management practices.
- 12) No part of the floating dock, stake(s), or permitted landing platform may be constructed from any materials or constructed in any manner to be considered a permanent structure. (i.e. there will be no use of concrete and all sections must be removable by use of common hand tools). Tying to trees (either the dock or any watercraft) or attachment to any natural feature (rocks, stumps, etc.) is strictly prohibited.
- 13) Each qualified, contiguous, private property owner will be permitted a maximum of one private floating dock permit. Each private floating dock may be permitted to moor no more than three vessels registered to that private property owner (provided that all three vessels and dock fit into the area described in item 9).
- 14) The proposed location of the private floating dock, stake(s) or mooring shall be determined by the Director and contained within the area of City of Columbus owned shoreline defined by an extension of the contiguous, private property owner's boundary lines. In cases where the angles are not perpendicular, or nearly perpendicular, this area will be determined by drawing a line perpendicular to the shoreline back to the contiguous, private property owner's sideline. In the case of private moorings, the length of the mooring rope/chain/cable shall not allow the vessel to exceed this area. If there is not a suitable site within this area, the request may be denied.
- 15) When permitted, private moorings must be located no farther than fifty (50) feet from the normal pool shoreline, but may not be any further than 25% of the width of the channel at that point. Moorings will only be considered for use on Hoover and O'Shaughnessy Reservoirs. Mooring anchors must be approved before placement and should be properly sized for the boat being moored (items such as used engine blocks are specifically prohibited). Each private mooring must be marked with at least a twelve (12) inch round diameter, orange marine buoy. The owner's address must be clearly marked upon the buoy.

- 16) When an application is approved, a contiguous, private property owner may install a boat stake or stakes. The stake(s) shall be driven or set into the ground by the permit holder at a site designated by the Director. No concrete or cement may be used. The stake(s) shall have a space for the permit decal and owner's address to be displayed, facing the water. The stake(s) shall be maintained in a safe condition by the permit holder and removed by the permit holder in the event that the stake permit is not renewed for any succeeding year. Boat stake(s) may not be relocated (due to low water levels, better access or any other reason) without written permission from the Director.
- 17) If the Director determines that any dock, structure, stairs, or other previously approved improvement (located on or attached to City property has become a detriment to the City, the person who installed such improvement shall remove it at their expense upon receiving written notice of the Director's determination. If the person who installed the improvement is no longer the contiguous property owner, the City may remove and dispose of said encroachment.

If the current contiguous property owner wishes to continue to use the improvement in conjunction with a pre-existing dock or stake, that property owner (referred to herein as the "responsible party") may submit a request to the Director to allow the improvement to remain. If the Director allows the improvement to remain, the responsible party must do all of the following:

- 1.) Submit a new or renewal dock/stake permit application
- 2.) Submit a signed Responsibility Form
- 3.) Keep the dock or stake permit current and valid.

If at any time the responsible party fails to renew their dock or stake permit by the annual March 15 deadline, the improvement shall no longer be approved and must be removed at the expense of the responsible party.

In areas where it is necessary, as determined by the Director, a single set of wood or properly reinforced steps may be approved to access the dock as part of an approved path. Installation of new stairs must be in compliance with City of Columbus building codes. The stairs must not be set in concrete.

18. In cases where there are violations with the land stewardship agreement, contiguous property owners shall have up to one calendar year from the notice of violation to resolve said violations. If the violations are not resolved after one year, the Director may revoke the private dock, stake or mooring permit.
- 19) The five (5) foot wide path to allow access to the private dock or stake (as described in Columbus City Code 921.01-8 (N) may be mown, but must be maintained in as natural a condition as possible and may not include cement, mortar, bricks or boardwalks. The Director must approve the location of this path. The path must follow the most direct line to the shoreline that affects the least amount of vegetation or natural features of the City of Columbus property. Permission to cut down trees or alter the landscape to create a path will not be granted, except that cutting of trees and brush less than 1" in diameter at the ground may be approved on a limited basis with permission.
- a) When necessary due to site conditions, the following improvements may be considered for a permit.
- i) Washed river gravel on top of filter fabric, not to exceed three (3) inches in depth.
 - ii) Pavers or natural stones not to exceed sixteen (16) inches in diameter and not to be set closer than six (6) inches together.
 - iii) Options "i" and "ii" combined provided all conditions of both are met.
- b) Paths may not be approved if the following conditions exist:
- i) If location of the path would threaten rare or endangered species of plants or wildlife. The Ohio Department of Natural Resources shall be considered the naming authority for these species.
- c) Areas of shoreline that are within designated Nature Preserve areas will not be permitted any modifications to accommodate a dock or path, but may be approved if the naturally existing conditions are acceptable (pursuant to City Code (Title 9, Chapter 921.01-8 (A)(2)).
- 20) The installation of facilities conducive to human habitation; including but not limited to household furnishings, water or electrical lines or hook ups, living quarters, sewers, toilets, or fueling facilities are not permitted on any private

floating or permanent dock.

- 21) Electrical service existing as of the effective date of these Administrative Rules on City of Columbus property that was previously authorized by the City of Columbus in writing will be allowed to remain until such time as there is a failure to submit an annual permit application with the applicable rental fee. In the event of a failure to submit an annual permit application the electrical service must be removed by the contiguous property owner at their expense. If the contiguous property owner fails to remove the electrical service the City may do so. Future dock permits will not be considered until the electrical service is removed.

For as long as the electrical service remains, the adjacent property owner must provide and maintain a lath marker where the electric line crosses the private property line onto City property and a like marker near the dock marking the same. The marker should indicate, in writing, "under-ground electric - do not dig". The material for the marker should be the same as markers used for roads and highways that is flexible plastic, which would not pose any threat of impaling a person. Failure to maintain these markers in accordance with this section at all times will be cause for immediate suspension or revocation of the dock permit.

In the event that there is any question as to whether the installation or the device meets all codes, the permit holder will be required to submit a letter from a licensed electrical contractor stating that he/she has personally inspected the device and installation and affirming that the installation and the device meets all City, State and Federal codes.

Solar powered, battery operated or self contained generator operated devices may be approved by the Director. Before any such device is installed the property owner must provide a sketch of the proposed electrical devices to be installed in connection with the dock permit. This sketch must include all lights, outlets, and related accessories. If the permit holder elects to use an extension cord to power a permitted electrical device at a dock then the cord may only be used when the permit holder is at the dock actively using the device. Extension cords must be plugged into a GFCI (ground fault circuit interrupter) outlet on the adjacent, private property. At all other times the extension cord must be removed from the park property.

The quantity of lights must be kept to a minimum, and are limited to the path and dock/stake/mooring. All lights must be directed downward and not toward the water, other residences or parks areas.

- 22) A hand powered or mechanical boatlift will be permitted so long as all other rules pertaining to docks are followed. Lifts that require electricity must comply with the established electric service rules contained within these Administrative Rules (item #21). Application for a boatlift must be **in writing** as part of the proposed dock plan and include specifications of the lift device.
- 23) No pilings may be driven through the water into the riverbed. Guide or support poles attached to the dock (or lift device) must have flat *feet* that rest on the riverbed or use non-driven spuds. Spuds must be removable using common hand tools and the permit holder must be able to demonstrate this upon request of the Recreation and Parks Department. Failure or inability to remove the spuds will be considered grounds for revoking dock privileges.
- 24) All floating docks, stakes and associated structures not previously authorized by the City prior to the effective date of these Administrative Rules must be designed and constructed to have the least impact visually and physically upon the City of Columbus owned property and dock must be maintained in a safe condition. Permittees must make every reasonable effort to construct and operate the authorized dock or stake(s) in a manner so as to minimize any adverse impact on fish, wildlife and natural environmental values including water quality.
- 25) Permitted docks and stakes must properly display the annual permit and property address (address must include at least the house numbers in three (3) inch high letters) on the dock structure or stake(s). The permit and address shall be placed on the dock or stake and face the open navigable water, visible to patrol watercraft.
- 26) The primary purpose of the private floating dock structure shall be as a safe mooring for permitted watercraft. This regulation does not exclude the permit holder, his/her family and guests from legally fishing from the dock. Personal property used in connection with recreational water activities, such as chairs, dock boxes, mooring lines, and so forth, shall be permitted on dock structures so long as such property is not otherwise prohibited by paragraph 18, this Section

or other Sections of these Rules. Private docks may not have any items attached to them or be used for any purpose other than safe mooring of permitted watercraft. Guest watercraft meeting code requirements, may moor to the permit holder's dock, however if the duration exceeds sixteen (16) hours on any date, the permit holder must obtain a temporary permit from the Columbus Recreation and Parks Permit and Rental Services Section, and all related regulations apply.

- 27) Requests for modifications or renovations to an existing dock must be in writing and approved by the Director. No work shall commence until the Director's written approval is received by the property owner. The property owner is hereby authorized to make minor repairs to the dock and associated structure when necessary to ensure the safety of the users. These repairs must use identical replacement materials and may not alter the appearance or dimensions of the permitted structure. No chemical treatments may be applied (paint, waterproofing, etc.) while the dock structure is in the water or sitting on City of Columbus owned property.
- 28) Private boat docks, stakes, associated structures and fixtures, other encroachments or private property discovered on or attached to City of Columbus park land without permission or in violation of Columbus City Code or these Rules will be considered abandoned and may be removed and disposed of by the Recreation and Parks Department; the Columbus Division of Power and Water acting as an agent of the Recreation and Parks Department under the terms of the "Water Supply Reservoir Cooperative Management Agreement", or by any law enforcement officer within their jurisdiction.
- a) Prior to removing abandoned private, personal property from City of Columbus property, the City will send notice to the contiguous property owner to allow them the opportunity to remove the personal property on their own. A letter sent via first class, U.S. mail to the name and address listed on the county auditor's web site for the contiguous property requesting removal within 30 days shall be deemed sufficient notice.

The Recreation and Parks Commission and the Director of the Columbus Recreation and Parks Department hereby adopt and authorize these Administrative Rules.
