HUGH J. DORRIAN CITY AUDITOR 614/645-7615

ROBERT L. MCDANIEL DEPUTY CITY AUDITOR FAX 614/645-8444

CITY OF COLUMBUS

90 WEST BROAD STREET COLUMBUS, OHIO 43215

July 20, 2007

Mayor Michael B. Coleman

Mr. Michael C. Mentel President of Council

Members of Council

Dear Mayor Coleman, President Mentel and Members of Council:

This report, as were previous reports, is a continuing effort to fully disclose the status of the City's outstanding bonds and notes and recites both current and some past history. At June 30, 2007 these bonds and notes amounted to:

TWO BILLION THREE HUNDRED FIFTY MILLION DOLLARS

The report also explains the legal and financial limitations applicable to the City's bonds and notes. The City's compliance with these limitations is demonstrated through the various tables and calculations contained herein.

The City of Columbus does not borrow monies for operating purposes. Outstanding bonds and notes represent financing for capital improvements (with the exception of the Police and Firemen's Disability and Pension Fund Employer's Accrued Liability Refunding Bonds), both completed and those in the process of completion.

Megan Kilgore of the City Auditor's Office compiled and produced this report. Her competence and hard work is appreciated.

This report, while not statutorily required, is simply intended to inform. Please feel welcome to call if you should have any questions regarding its content.

Very truly yours,

high & Korreas

Hugh J. Dorrian

City Auditor

A Report on Its

Bonds and Notes Outstanding

at

RATINGS

The City's bond ratings are shown in the following table as of June 30, 2007.

		Agency Rating	
Туре	Moody's	Standard & Poor's	<u>Fitch</u>
General Obligation Fixed Rate Bonds	Aaa	AAA	AAA
 General Obligation Variable Rate Demand Bonds 	Aaa/VMIG1	AAA/A-1+	Not Rated
 1994 Sewer System Adjustable Rate Revenue Refunding Bonds 	Aa2/VMIG1	AA/A1+	Not Rated
 1999 Water System Revenue Refunding Bonds 	Aa2	AA	Not Rated
 2002 Sewer System Revenue Refunding Bonds 	Aa2	AA	Not Rated
 2006 Sewer System Adjustable Rate G.O. Bonds 	Aaa/VMIG1	AAA/A-1+	AAA/F1+

Liquidity needs for the 1994 Sewer System Adjustable Rate Revenue Refunding Bonds and 2006 Sewer System Adjustable Rate G.O. Bonds are provided by the City's Treasury Investment Portfolio, which at June 30, 2007 was \$1.067 billion.

The General Obligation Variable Rate Demand Bonds are enhanced by a Liquidity Facility. On July 6, 2007, the City obtained an alternate liquidity facility in the form of a Standby Bond Purchase Agreement issued by JPMorgan Chase Bank, National Association. The Liquidity Facilities on the 1995 variable rate general obligation bonds and the 1996 variable rate general obligation bonds will expire on July 5, 2012. Prior to July 6, 2007, these bonds were enhanced by Liquidity Facilities provided by Westdeutsche Landesbank Girozentrale, New York Branch.

SYNOPSIS

- 1. The City continues to meet all legal requirements imposed by state and local statutes regarding its outstanding bonds and notes.
- 2. Financial debt margins for Non-enterprise general obligation debt, income tax coverage ratios, remain substantial and exceed the City's self imposed coverage requirements.
- 3. The City continues to exceed debt coverage requirements for both revenue and general obligation bonds of the City's enterprises.

The City operates four enterprises, a Water system, a Sanitary Sewer system, a Storm Sewer system and an Electricity system. The Water and Sanitary Sewer enterprises have both revenue and general obligation bonds outstanding. The Storm Sewer and Electric enterprises have only general obligation bonds outstanding.

4. Remaining unissued amounts and purposes of debt authorized by voters in 1999 and 2004 is shown in the following table. There is no time limit regarding utilization of the authorization.

City of Columbus, Ohio Legal Debt Margins General Obligation Bonds and Notes

The following explanation of "Debt Limitations" has been extracted from the City's Official Statement dated November 30, 2006. Pay particular attention to the "Indirect Debt Limitations: The Ten Mill Tax Limitation."

Direct Debt Limitations

Section 133.03, Ohio Revised Code, provides that the net unvoted general obligation debt of the City, excluding certain exempt debt, shall never exceed five and one-half percent of the total value of all property in the City as listed and assessed for taxation. Section 133.03 further provides that the net general obligation debt of the City, including its voted and unvoted general obligation debt, but excluding certain exempt debt, shall never exceed ten and one-half percent of such total assessed valuation. With the exception of certain types of general obligation debt infrequently issued by the City, only enterprise general obligation debt is exempt from the statutory limitations provided the City Auditor certifies at the time of issuance that revenues of the enterprises to which such general obligation debt is allocated are sufficient to cover the cost of all operating expenses and to pay principal and interest on such debt.

Indirect Debt Limitations: The Ten Mill Tax Limitation

Ohio law requires that general obligation bonded indebtedness cannot be incurred or renewed unless provision is made in the legislation authorizing such debt for the levy of an ad valorem property tax in an amount sufficient to pay the principal of and interest on such indebtedness when due. Ohio law also provides that the aggregate amount of such taxes which can be levied for all purposes without a vote of the electors cannot exceed ten mills per one dollar of assessed valuation.

With respect to unvoted general obligation debt, these two requirements--the requirement that provision be made for the levy of taxes to support such debt and the requirement that the total amount of unvoted property taxes which can be levied cannot exceed ten mills per one dollar of valuation--have been construed by the Ohio Supreme Court to create an indirect debt limitation of the issuance by a political subdivision of unvoted general obligation debt.

The ten mills which may be levied without a vote of the electors is allocated among the overlapping political subdivisions of the State pursuant to a statutory formula. This "inside" millage allocated to each political subdivision is required to be used first for the payment of debt service on unvoted general obligation debt of the subdivision, unless provision has been made for payment of the debt from other sources; second for partial police and fire pension requirements; and, the balance for other general fund purposes. To the extent this millage is

required for debt service, the amount that would otherwise be available for general fund purposes is reduced.

A subdivision's allocation of inside millage can be increased by action of the County Budget Commission pursuant to statute only in the event additional millage is required for the payment of debt service on its unvoted general obligation debt and, in that case, the inside millage allocated to the other overlapping subdivisions would be reduced to bring the aggregate levies of inside millage within the ten mill limitation.

The ten mill limitation applies even if the debt service on tax-supported obligations is expected to be paid from special assessments, utility earnings or other sources. However, revenue bonds and notes, payable solely from specifically pledged revenues, are not included in calculating debt subject to this limitation since neither the general revenue nor the full faith and credit of the issuer is pledged for their payment.

In determining whether or not unvoted general obligation debt to be issued by the City is within the ten mill limitation, it is first necessary to determine how much millage has already been committed for the outstanding unvoted general obligation debt of the City and how much millage has been committed by each overlapping political subdivision for its outstanding unvoted general obligation debt. The amount of such committed millage for each political subdivision is that which will be required for all of such subdivision's outstanding unvoted general obligation debt for that fiscal year in which the debt service charges of that subdivision for such debt will be the highest. In the case of notes issued in anticipation of bonds, the debt service requirements estimated for the bonds anticipated by the notes is used to calculate the millage required.

The City overlaps several political subdivisions and it is therefore necessary to determine, with respect to each such subdivision, how much millage that subdivision has committed for its outstanding unvoted general obligation debt. The aggregate millage which has been committed by that combination of overlapping subdivisions that yields the highest total of committed millage thus determines the millage within the ten mill limitation which is available and can be committed to service additional unvoted general obligation debt.

Such determinations are made by the County Auditor who has certified to the City that there is sufficient uncommitted millage within the ten mill limitation to service the City's unvoted general obligation debt.

The Indirect Debt Limitation

Computation of Direct and Overlapping Debt

Debt of the City, authorized by the Council but not by a vote of the electors, is subject to overlapping restrictions with each respective county and school district. Limitations apply to each county total and should not be considered cumulatively. Total debt service charges for any one year of all overlapping debt must not exceed ten mills (1%) of the assessed property value. This determination is made by the respective county auditors each time a subdivision proposes to issue unvoted debt. The most recent data prepared by the county auditors for this purpose is as of June 30, 2007.

* Solid Waste Authority of Central Ohio

The City does not pay general obligation debt service from property taxes. General obligation debt service relating to enterprise funds is paid from the respective enterprise fund. All other general obligation debt service is paid from income taxes, certain charges for services, and payments in lieu of taxes designated by the City for that purpose and accounted for in a debt service fund and from special assessments.

(1) Mills required to pay debt service (principal and interest) for highest year during life of bonds.

City of Columbus, Ohio Financial Debt Margins General Obligation Bonds and Notes

Debt service on the City's non-enterprise general obligation bonds and notes, both voted and unvoted, is primarily paid from income tax. Other lesser resources, special assessments, and a portion of recreation fees also provide debt service monies for certain general obligation bonds.

General obligation bonds and notes are legally supported by property taxes, either those taxes already levied (for unvoted debt) or those taxes that the City has authority to levy (for voted debt) but have assured the taxpayers that it will not do so. Property taxes presently levied by the City are used to support general fund operations. Therefore, in order to avoid reducing general fund resources and/or imposing additional property taxes it is not only prudent, but also very important that we maintain income tax debt service coverage ratios that will withstand the volatility of all the assumptions that go into projecting debt service needs 10 to 20 years into the future. These coverage ratios are, therefore, self imposed disciplines.

For many years the City had maintained a coverage ratio within its income tax debt service fund of 1.3 X debt service requirements for non-enterprise general obligation bonds. Coverage is defined as incoming resources during a current year added to the available resources at the end of the previous year then divided by the debt service requirement. The City now maintains a coverage ratio of 1.4 X debt service requirements. This increased coverage ratio simply adds greater strength to the City's bonds.

The City projects the resources and planned debt activity over a ten-year period and maintains the coverage requirement throughout the projected period. As added protections for the City's bondholders, coverage ratios may be increased when economic conditions call for added protection.

The City recognizes that debt service requirements are fixed in place for many years, whereas, income tax collections can vary with economic cycles. Also, the income tax rate cannot be increased beyond its present rate of 2% without a vote of the City's electorate.

City of Columbus, Ohio Financial Debt Margins Revenue Bonds

The City operates four enterprise activities: a Water system, a Sanitary Sewer system, a Storm Sewer system, and an Electricity distribution system.

The City is in compliance with all requirements contained in the enterprises' bond indentures.

Bonds and notes of the Enterprises are supported solely by user charges, excluding assessment bonds and notes which are supported by respective assessments. Tax revenues are not used. As indicated in the past, especially in regard to the Water and Sewer Enterprises, the higher the debt, the higher the user rates.

TOTAL

Total outstanding bonds and notes of the City of Columbus at June 30, 2007 were:

TWO BILLION THREE HUNDRED FIFTY MILLION DOLLARS (1)

In 2006 approximately TWENTY CENTS (20.07%) of every dollar of the City's total revenue was directed toward payment of principal and interest on debt.

The weighted average interest rates of the City's total outstanding bonds and loans were:

Bond Type	<u>6/30/06</u>	6/30/07
General Obligation	4.9627%	4.8666%
Revenue	3.9444%	3.8669%
Combined	4.6434%	4.5452%

Following is additional current and ten-year historical data on the City's TOTAL outstanding bonds and notes.

⁽¹⁾ Excludes \$7.4 million special obligation notes limited to revenues from two TIFs and only if such revenues are available. Timing of repayments, if any, cannot presently be determined.

Total Bonds and Notes Outstanding

(in millions of dollars)

General obligation:	<u>6/30/06</u>	6/30/07
Voted	\$ 1,061	\$ 1,175
Unvoted	382	413
	1,443	1,588
Revenue	672	<u>762</u>
Total	<u>\$ 2,115</u>	<u>\$ 2,350</u>

At June 30, 2007, 74% of the City's general obligation debt was authorized by a direct vote of the electorate (74% at June 30, 2006).

- (1) Above revenues represent revenues of the City's General, Special Revenue and Debt Service funds and operating and non-operating revenues of the Enterprise funds. Internal Service funds revenues, since they are derived from other funds of the City, Capital Projects funds and Fiduciary funds are excluded.
- (2) The above debt service represents all funds of the City and includes, therefore, debt service expenditures from the Governmental funds; also interest expense, interest capitalized and principal payments on bonds and loans in the proprietary funds.
- (3) Debt service in 2006 includes \$172.816 million principal, exclusive of principal payments on bond anticipation notes, and \$94.308 million interest.

City of Columbus, Ohio Total Outstanding Bonds and Notes

■ Water ■ Sanitary Sewer □ Storm Sewer □ Electricity ■ Non-Enterprise/Infrastructure

^{*} Excludes \$7.4 million special obligation notes limited to revenues from two TIFs and only if such revenues are available.

WATER

Outstanding bonds and notes attributable to the WATER Enterprise at June 30, 2007 were:

TWO HUNDRED EIGHTY SEVEN MILLION DOLLARS

In 2006, of total Water Enterprise revenues, 35.90%, or approximately THIRTY SIX CENTS of every dollar, was directed toward payment of principal and interest.

The weighted average interest rates of outstanding bonds in the Water Enterprise were:

Bond Type	6/30/06	6/30/07
General Obligation	4.8277%	4.8688%
Revenue	5.0000%	5.0000%
Combined	4.8509%	4.8830%

Following is additional current and ten year historical data on the WATER Enterprise outstanding bonds and notes.

Legend

D T – Debt Type

L – Limited

U - Unlimited

R – Revenue

A – Assessment

DF - Debt Form

B - Bond

STN - Short Term Note

LTN – Long Term Note

- * Weighted interest rate on the outstanding principal.
- ** The average interest rate for the 1996 variable rate bonds for the first six months of 2007 was 3.6404% and 2.6288% since their inception.

NON-ENTERPRISE/INFRASTRUCTURE AND OTHER

Outstanding bonds and notes attributable to the city's NON-ENTERPRISE and INFRASTRUCTURE type capital assets, Internal Service Fund computer notes and bonds, and the City's Police and Firemen's Disability and Pension Fund Employers Accrued Liability Refunding Bonds at June 30, 2007 were as follows:

NINE HUNDRED TWENTY MILLION DOLLARS

Principal and interest on this debt is supported by income tax, in lieu of property tax payments, assessments and recreation fees for non-enterprise infrastructure, Internal Service Fund revenues for computer notes and bonds and current operating revenues for Police and Firemen's Disability and Pension Fund Employer's Accrued Liability Refunding Bonds.

The weighted average interest rates of outstanding non-enterprise bonds and loans were:

	<u>6/30/06</u>	<u>6/30/07</u>
General Obligation	4.9800%	4.9203%
Revenue	4.3642%	4.4768%
Combined	4.9065%	4.8619%

Following is additional current and ten year historical data on the NON-ENTERPRISE and INFRASTRUCTURE outstanding bonds and notes.

City of Columbus, Ohio

Bonds and Notes Outstanding

(in millions of dollars)

Non-Enterprise/Infrastructure and Other

	<u>6/30/06</u>	6/30/07
General obligation:		
Voted	\$ 545	\$ 571
Unvoted	278	283
	823	854
Revenue	69	<u>66</u> (1)
Total	<u>\$ 892</u>	<u>\$ 920</u>

At June 30, 2007, 67% of the Non Enterprise/Infrastructure general obligation debt was authorized by a direct vote of the electorate (66% at June 30, 2006).

(1) Revenue bonds include the Easton Tax Increment Financing District Bonds, the Polaris Tax Increment Financing District Bonds, the Brewery Tax Increment Financing District Bonds Series B, and the Waggoner Tax Increment Financing Bonds, all of which are supported by payments in lieu of property taxes for the Tax Increment Financing District. Revenue bonds also include the FNMA Single Family Mortgage Revenue Note.

Sources of funding:

- Income tax, special assessments, and recreation fees.
- Internal Service Fund revenues for certain computer notes and bonds.

City of Columbus, Ohio

Compliance Information Securities and Exchange Commission Rule 15c2-12(b)(5)(i)(C) and (D)

In the spirit of full disclosure and in compliance with the above Rule, the City is pleased to disclose the following regarding its outstanding obligations.

Description of Material Events:

- 1. There were no delinquencies of principal and/or interest payments.
- 2. There were no non-payment related defaults.
- 3. There were no unscheduled draws on debt service reserves reflecting financial difficulties.
- 4. There were no unscheduled draws on credit enhancements reflecting financial difficulties.
- 5. As related to the City of Columbus, Ohio, Various Purpose Variable Rate G.O. Bonds, Series 1995-1 (Dated May 17, 1995) and Series 1996-1 (Dated December 19, 1996), the City has elected to obtain an Alternate Liquidity Facility with JP Morgan Chase Bank, National Association, expected to be effective by the end of the second quarter, 2007, and running for a period of five years. The substitute liquidity facility will provide the same level of liquidity for such Bonds as currently provided by WestLB AG, and as described in Note G of this report.
- 6. There have been no adverse tax opinions affecting the tax-exempt status of any of the City's outstanding obligations.
- 7. There have been no modifications to rights of the holders of the City's obligations.
- 8. There were no bond calls in 2006.
- 9. There were no defeasances in 2006.
- 10. The City did not release, substitute, or sell any property (the City has not secured any of its obligations with any of its property) securing repayment of obligations.
- 11. Ratings of the City's bonds and any changes occurring since the City's 2005 CAFR are as follows.

	Moody's Inv	estors Service	Standard	and Poor's	Fitch I	Ratings*
Bond Description	Prior Rating	Current Rating	Prior Rating	Current Rating	Prior Rating	Current Rating
General Obligation Fixed Rate Bonds	Aaa	Aaa	AAA	AAA	N/A	AAA
General Obligation Variable Rate Demand Bonds	Aaa/VMIG1	Aaa/VMIG1	AAA/A-1+	AAA/A-1+	N/A	Not Rated
1999 Water System Revenue Refunding Bonds	Aa2	Aa2	AA	AA	N/A	Not Rated
1994 Sewer System Adjustable Rate Refunding Revenue Bonds	Aa2/VMIG1	Aa2/VMIG1	AA/A1+	AA/A1+	N/A	Not Rated

2006 Sewer System Adjustable Rate G.O. Bonds	N/A	Aaa/VMIG1	N/A	AAA/A-1+	N/A	AAA/F1+

^{*}The City was assigned its first Fitch rating in August 2006 for the Sewer System Adjustable Rate G.O. Bonds.

12. The City will continue to provide all the necessary information, contained below under "Continuing Disclosure Undertaking", on an annual basis as is required by the Rule.

Continuing Disclosure Undertaking:

The following provides the Annual Information and/or indicates where in this report the Annual Information may be obtained.

- (1.) **Debt Summary Outstanding Bonds and Notes** see Note G contained in this report.
- (2.) <u>Debt Summary Overlapping Debt</u> see Table 18 contained in this report.

(3.) Debt Summary – Historical Debt Information

At December 31 of each of the last ten years outstanding bonds and notes, exclusive of the capitalized leases of \$2.0 million, are shown in the following table.

	(in	thousands)

10	JC Penney Properties Inc.	164,618.32		33,030.79	1.99

(23.) <u>Debt Summary – Projected Additional Debt</u>

To be eligible for capital improvements funding (i.e., from issuance of debt), an asset must have a useful life of at least five years and be considered non-operational. Some examples of capital improvements projects include the purchase of major equipment items, street lighting, street improvements, land acquisition for recreational needs, building construction, and facility rehabilitation. The City's planned capital improvements program (CIP), for the period 2007 through 2012, provides for approximately \$2.8 billion in funding for various capital improvements. A copy of the current CIP may be obtained by contacting the Department of Finance, City Hall, 90 West Broad Street, Columbus, Ohio 43215.

This Comprehensive Annual Financial Report of the City of Columbus, Ohio will be distributed to approximately 500 recipients including the Municipal Securities Rulemaking Board, all nationally recognized municipal securities information repositories (NRMSIRS), and to the Ohio Municipal Advisory Council. This report is also available on the City's website. The Internet address is: http://www.cityofcolumbus.org.

Appendix A

The following document details the flow of funds necessary to ensure the timely payment of debt service for the City's various debt obligations. The City Auditor's Debt Management and Tracking System currently maintains hundreds of separate debt issues which require an array of processes to properly account for the debt.

The City also monitors bonds which have been advance refunded and require monies to be held in escrow by the designated trustee. These funds will be used by the trustees to pay debt service on the defeased bonds and this flow of funds will also be illustrated in this document.

It is imperative that we continue the prompt and timely payment of the City of Columbus debt obligations, as this is a significant factor in the City's top general obligation bond rating from Standard and Poor's Corporation, Moody's Investors Service, and Fitch Ratings, AAA, Aaa, and AAA, respectively.

The following are cash f	flow procedures for <u>Obligation</u> Bonds.	the payment of <u>General</u>

-2-

General Obligation Bonds

The City's general obligation bonds take form in three categories.

- (1) Bearer bonds the last general obligation bearer bonds issued by the City were dated June 1, 1983. Bonds may no longer be issued in bearer form.
- (2) Individually registered bonds in certificate (paper) form those bonds that have been converted from their original issuance in bearer form.
- (3) Fully registered bonds in book entry only form those bonds that have only one certificate (paper) for each maturity of each issue printed and delivered to the registered holder.

It is the City's intention to continue to issue its bonds exclusively in book entry only form.

The exhibit below illustrates the monthly flow of funds to pay debt service for the City's outstanding general obligation bonds. The process begins when the Sinking Fund (SF), a commission established by Sections 133-141 of the City Charter to provide for the payment of debt service on the City's general obligation bonds, submits a debt service billing for the ensuing month to the City Auditor's Office who then verifies the amounts. The amount billed is the total debt service for all general obligation bonds irrespective of bond category (i.e. bearer, registered, fully registered paper or book entry bonds). Once verified, an auditor's warrant is issued to the Sinking Fund. The Sinking Fund presents this warrant to the City Treasurer for deposit to the City Treasurer-Sinking Fund Account.

Actual payment of principal and interest of bonds described in the above categories proceeds as follows.

(1) Bearer bonds – The Sinking Fund verifies the authenticity of matured bearer instruments when they are presented either by mail, messenger or in person. The Sinking Fund will issue a receipt in favor of the presenter and will convey a copy of the receipt to the City Treasurer within one working day. The City Treasurer will then make payment by either wire or check. Bearer instruments presented prior to their maturity are processed similarly with the exception that payment is not authorized until such maturity date. Holders of bearer bonds who have presented such bonds, along with all future interest coupons, to the Sinking Fund requesting registration of such bonds are issued a singular registered bond. Payment for the registered bond then proceeds as described in (2) below. As of June 30, 2007, bearer bonds with their accompanying coupons remain outstanding in the amount of \$1,532,322.46.

- (2) <u>Interest</u> payments on individually registered bonds are paid directly from the Sinking Fund via Sinking Fund warrants or wired by the City Treasurer pursuant to Sinking Fund directions and warrants. <u>Principal</u> payments of individually registered bonds are made in the same manner as (1) above.
- (3) Fully registered bonds in book entry form The Sinking Fund provides the City Treasurer with dates, amounts and recipient bank identification for the payment of all principal and interest for book entry bonds. The Sinking Fund authorizes, via a Sinking Fund warrant, the City Treasurer to make such payment. The City Treasurer then wires, on appropriate dates, book-entry <u>principal</u> and <u>interest</u> payments to the registered holder of record. Where a depository is the registered holder, funds are transferred through their member brokers to the accounts of the individual owners of beneficial interests in the bonds.

The following are cash flow procedures for the payment of Revenue Bonds.

1999 WATER REVENUE BONDS

The <u>1999</u> Water Revenue Refunding Bonds are fixed rate bonds which again have a "traditional" fixed rate revenue bonds flow of funds. The last business day of each month the City Treasurer, with a warrant from the City Auditor's Office, wires to the trustee, Huntington National Bank (Huntington), one sixth of the next interest payment due as well as one twelfth of the next principal payment. These funds accumulate until the principal and interest due dates arrive at which time the trustee wires the payment to D.T.C. who handles the final remittance to the bondholders. The interest earnings on the trustee account accumulate and are used to offset the October 31 payment of each year as provided for in the trust agreement.

1994 SEWER REVENUE BONDS

The 1994 Sewer Revenue Refunding Bonds are variable interest rate bonds which have monthly interest payments, but no principal payments until the years 2009, 2010, and 2011. The monthly interest payment is payable by the City Treasurer, pursuant to a warrant from the City Auditor's Office, to the trustee, Bank of New York (formerly JPMorgan Chase), on the last business day of the month. The amount is verified by the City Auditor with the trustee the previous day. The amount due is calculated by using weekly variable interest rates as provided by A.G. Edwards & Sons, Inc. The City Treasurer then wires the appropriate amount to Bank of New York. Bank of New York then wires the funds to D.T.C. who will then remit the interest due to the bondholders.

2002 SEWER REVENUE BONDS

The <u>2002</u> Sewer Revenue Refunding Bonds are fixed rate bonds which require the City Treasurer, with a warrant from the City Auditor's Office, to remit one sixth of the next interest payment along with one twelfth of the next principal payment on the last business day of each month to the trustee, Bank of New York (formerly JPMorgan Chase). When the interest and/or principal due dates arrive, the trustee remits the debt service to D.T.C. who then makes payment to its members/bondholders.

The following are cash flow procedures for the payment of <u>Defeased</u> Bonds.

DEFEASED BONDS

As of June 2007, the City has twelve bond issues that have been advance refunded and require that escrow accounts be held with trustees for the payment of debt service on the defeased bonds. These bonds are listed below along with a description of the flow of funds necessary for the prompt payment of debt service as well as the final payment from the escrow at the appropriate call date.

1. Sewer Improvement No. 26-General Obligation Bonds

These bonds were issued June 15, 1991. Of the original issuance, \$5,070,000 and \$30,405,000 were advance refunded November 15, 1993 and April 8, 1994, respectively. The maturities defeased were September 15, 2011 on November 15, 1993 and September 15, 2005 through 2010 on April 8, 1994. The source of funds for these defeasances were provided by the US Environmental Protection Agency through the Ohio Water Pollution Control Loan Fund and administered by Ohio Water Development Authority. An escrow account was funded at JPMorgan Chase (formerly, Mellon Bank). The escrow agent will pay debt service on the defeased bonds until final maturity on September 15, 2011. The flow of funds is illustrated below.

- 2. Various Purpose Limited Tax Bonds, Series 1997-1 General Obligation Bonds
- 3. Various Purpose Unlimited Tax Bonds, Series 1997-2 General Obligation Bonds

The above two bond issues were issued November 15, 1997 and advance refunded February 23, 2005. An escrow account was funded at JPMorgan, the escrow agent, who will pay debt service on the defeased bonds until the bonds are called on June 15, 2008. The maturities defeased were June 15, 2009 through 2018. The flow of funds is illustrated below.

4. Various Purpose Limited Tax Bonds, Series 1998-1 – General Obligation Bonds

5. Various Purpose Unlimited Tax Bonds, Series 1998-2 – General Obligation Bonds

The above two bond issues were issued December 15, 1998 and advance refunded February 23, 2005. An escrow account was funded at JPMorgan, the escrow agent, who will pay debt service on the defeased bonds until the bonds are called on June 15, 2009. The maturities defeased were June 15, 2010 through 2019. The flow of funds is illustrated below.

6. Various Purpose Limited Tax Bonds, Series 1999-1 – General Obligation Bonds

7. Various Purpose Unlimited Tax Bonds, Series 1999-2 – General Obligation Bonds

The above two bond issues were issued December 15, 1999 and advance refunded February 23, 2005. An escrow account was funded at JPMorgan, the escrow agent, who will pay debt service on the defeased bonds until the bonds are called on June 15, 2010. The maturities defeased were June 15, 2011 through 2017. The flow of funds is illustrated below.

- 8. Various Purpose Limited Tax Bonds, Series 2000-2 General Obligation Bonds
- 9. Various Purpose Unlimited Tax Bonds, Series 2000-1 General Obligation Bonds

The above two bond issues were issued November 15, 2000 and advance refunded February 23, 2005. An escrow account was funded at JPMorgan, the escrow agent, who will pay debt service on the defeased bonds until the bonds are called on November 15, 2010. The maturities defeased were November 15, 2011 through 2021. The flow of funds is illustrated below.

10. Various Purpose Unlimited Tax Bonds, Series 2001 – General Obligation Bonds

The above bonds were issued December 15, 2001 and advance refunded February 23, 2005. An escrow account was funded at JPMorgan, the escrow agent, who will pay debt service on the defeased bonds until the bonds are called on January 1, 2012. The maturities defeased were January 1, 2013 through 2022. The flow of funds is illustrated below.

11. Various Purpose Unlimited Tax Bonds, Series 2002-1 – General Obligation Bonds

The above bonds were issued November 15, 2002 and advance refunded February 23, 2005. An escrow account was funded at JPMorgan, the escrow agent, who will pay debt service on the defeased bonds until the bonds are called on November 15, 2012. The maturities defeased were November 15, 2016 and 2017 and November 15, 2021 through 2023. The flow of funds is illustrated below.

12. Police and Firemen's Disability and Pension Fund Employer's Accrued Liability Refunding Bonds – General Obligation Bonds

The above bonds were issued July 17, 1998 and advance refunded August 30, 2005. An escrow account was funded at JPMorgan, the escrow agent, who will pay debt service on the defeased bonds until the bonds are called on July 15, 2008. The maturities defeased were July 15, 2009 through July 15, 2018. The flow of funds is illustrated below.

Other defeased issues have been presented to the paying agent and redeemed and therefore are not reflected in this report.

The following are cash flow procedures for the payment of other outstanding debt obligations.

OTHER OUTSTANDING DEBT OBLIGATIONS

Listed below are other outstanding debt obligations along with a brief description of how the debt is retired.

OTHER GENERAL OBLIGATION NOTES

The amount equal to the non-enterprise (other than assessments) note interest due will be transferred from the special income tax fund (430) to the capital projects fund which will then pay the interest expense to the Sinking Fund.

The amount equal to the enterprise note interest due will be transferred from the respective enterprise's operating fund to the Sinking Fund.

OWDA LOANS

This debt consists of loans payable to the Ohio Water Development Authority (OWDA) which were incurred to help finance sewerage treatment plants and improvements. Some of these loans originated with OWDA. Other loans originated with the Ohio Water Pollution Control Loan Fund (OWPCLF) and are administered by OWDA. An amortization schedule for each loan is maintained by the City's accounting section and confirmed annually with OWDA. OWDA is paid twice a year (January 1 and July 1). An invoice for each required loan payment is sent to the Auditor's Office from OWDA. A voucher is written by the Auditor's Office from the sewer operating fund (650).

Payments to prospective contractors building the facilities and sewer lines will be made directly by OWDA to the contractor. Engineering fees, paid initially by the City, will be reimbursed to the City by OWDA. The City will record a corresponding liability to OWDA at the time of these payments.

OPWC LOANS

The Ohio Public Works Commission (OPWC) extends loans to the City for infrastructure and storm sewer improvements. These loans are non-interest-bearing and have serial maturities. An amortization schedule for each loan is maintained by the City's accounting section. OPWC is paid twice a year (January 1 and July 1). An invoice for each required loan payment is sent to the Auditor's Office from OPWC. A voucher is written by the Auditor's Office from the special income tax fund (430).
