#### JOE A. LOMBARDI Director

February 26, 2021

MEMORANDUM TO: Andrew J. Ginther

Mayor

FROM: Joe A. Lombardi

Finance and Management Director

SUBJECT: 2020 Year-End Financial Review

The Finance and Management Department's year-end financial review is attached. This document compares overall revenues and expenditures in 2020 to those in 2019, and also compares the resource and expenditure projections made in the 2020 third quarter financial review to the year-end actual results. In 2020, the City faced unprecedented challenges due to the Covid-19 pandemic and its far reaching impact on residents, City operations, and the regional economy. As such, the following review attempts to identify significant variances in revenues and expenditures, and note those that are attributable to the pandemic.

DEPARTMENT OF FINANCE

AND MANAGEMENT

It should be highlighted that due to the economic effects of COVID-19, the Auditor's revenue estimate was officially adjusted three times from the original estimate for 2020: downward once in June and upward twice in the fourth quarter. In order to address the City Auditor's reduced revenue estimate in June and to recognize the projected budgetary savings resulting from the spending controls implemented by the Mayor, a \$41.5 million general fund appropriations reduction was implemented pursuant to Ordinance 1436-2020. This Ordinance received City Council passage on September 14, 2020.

For 2020, actual revenues for the general fund were approximately \$86.4 million (or 9.8 percent) above the revenue projections of the City Auditor at the end of the third quarter. Year-end 2020 expenditures for the general fund were \$53.8 million (or 6.1 percent) above assumptions made at the end of the third quarter. The year-end general fund balance of \$78.3 million was \$30.4 million higher than third quarter projections.

It should also be highlighted that in 2020 the City received \$157 million in Coronavirus Aid, Relief, and Economic Security (CARES) Act funds. These funds were earmarked by the U.S. Treasury to provide economic support to local governments and their communities due to the financial and health related impacts of the pandemic. While these are not general fund proceeds, they were utilized by the City to offset certain COVID-19 related expenditures for personnel, supplies, and services. Additionally, CARES Act funds were provided to the community in the form of emergency shelter and food assistance, housing and rental support, utility assistance, infant mortality reduction, human services agencies support, minority and small business support, technology for Columbus City Schools, establishment of internet hotspots and learning extension centers, child care centers support, COVID-19 testing, contact tracing, and vaccine distribution, facial coverings distributed to communities, and a number of other initiatives and social programs designed to address the pandemic. As such, these CARES Act proceeds were allocated to various City departments for the purpose of funding programs to address the aforementioned initiatives.

When comparing actual revenues to third quarter projections, notable <u>positive</u> variances were income tax revenues (\$26.3 million), casino revenue (\$561K), investment earnings (\$1.1 million), and all other revenue (\$67.1 million). It should be noted that the primary contributing factor to this sizable, positive variance was the receipt and deposit of three Bureau of Workers' Compensation (BWC) rebates totaling \$78.6 million. Several revenue categories were <u>below</u> the Auditor's third quarter projection. Property tax collections were \$834K lower, Kilowatt Hour tax collections were \$158K lower, local government fund revenues were \$1.4 million lower, liquor permit collections

were \$124K lower, license and permit fees were lower by \$2.2 million, and fines and penalties were lower by approximately \$4.0 million when compared to the third quarter projections. Certainly the economic impact of COVID-19 contributed to decreased revenues in several of these categories, most notably license and permit fees as well as fines and penalties. Overall, 2020 actual general fund revenues were \$55 million, or approximately 6 percent, above 2019 collections. Note that 2019 revenues were \$48.8 million, or 5.7 percent, above 2018 total revenues.

Five departments had substantially increased general fund spending from that projected at the end of the third quarter. Expenditures in the Department of Finance & Management were a combined \$53.8 million more than projected due to the receipt, and subsequent transfer, of a Bureau of Workers' Compensation dividend to the Basic City Services subfund in December 2020. For the Municipal Court Judges, expenditures were \$362K higher than projected due to an extension of the Franklin County Convention Center rental agreement, which fell outside the CARES Act monies' expiration date. Therefore, the funding was provided by the general fund. In the Department of Public Service, expenditures were \$726K higher than projected due primarily to an increase in fleet related costs. There were also expenditures in excess of the third quarter projections in the general fund subsidies for the Recreation and Parks Department of \$2.1 million and \$159K for the Health Department. Most other Departments had either small positive or negative general fund variances when compared to the third quarter financial review.

All "other funds" remain in a positive financial position with the exception of the negative unencumbered cash balances in the Parking Meter Program Fund and the Fleet Management Services Fund.

Thanks to your leadership during these unprecedented times, the City was able to maintain a strong financial position, while meeting the urgent needs of the community. Should you have any questions regarding the report, please feel free to contact me at your convenience.

c. City Council
City Auditor, Megan N. Kilgore
City Attorney, Zachary M. Klein
Department Directors

# 2020 YEAR-END FINANCIAL REVIEW

As of December 31, 2020

Prepared by Department of Finance and Management

#### GENERAL FUND OVERVIEW

#### **Comparison to 2019 Actual**

**Resources:** Total general fund resources in 2020 were \$1,012,271,916, \$60.2 million higher than 2019. This figure includes a beginning unencumbered cash balance of \$40.8 million, \$3.8 million in cancelled encumbrances, and \$3 million in fund transfers. Annual revenue in 2020 exceeded 2019 revenue by \$55 million, or 6.0 percent.

Income tax revenue decreased \$6.5 million, or -.9 percent over 2019. Property tax and kilowatt hour tax receipts decreased by 2.0 percent and 5.2 percent, respectively.

In 2020, shared revenues related to the local government fund decreased approximately \$156,000, or -.7 percent from 2019 amounts. Liquor permit and cigarette tax revenues decreased by approximately \$100,000 combined. Casino revenue totaled \$5.4 million, a decrease of over \$1.7 million over 2019 collections.

Total revenues in the other revenue category increased by \$64.7 million, or 53.9 percent, over 2019 figures. Primarily contributing to this sizable, positive variance was the receipt and deposit of three rebates totaling \$78.6 from the Bureau of Workers' Compensation. All other revenue lines in this broad category came in less than that which was received in 2019. Investment earnings decreased \$2.2 million, or -10.3%. Revenue for license and permit fees came in less than 2019 by \$2.3 million. Fines and penalties ended the year \$7.3 million lower than in 2019. Finally, charges for services decreased 6.9 percent in comparison to 2019, coming in at \$60.9 million.

The year-end 2020 unencumbered cash balance increased to \$78.3 million, roughly a \$37.5 million difference from the year-end 2019 unencumbered cash balance. Encumbrance cancellations and fund transfers were down \$6.2 million and \$13.3 million, respectively, over 2019 levels.

**Expenditures:** Total 2020 general fund expenditures were \$934 million, or up \$22.7 million from the \$911.3 million expended in 2019. Included in the 2020 figure are budgeted deposits to the economic stabilization fund, the anticipated expenditures fund, and the basic city services fund of \$3.0 million, \$2.6 million, and \$5.6 million, respectively. In the 4<sup>th</sup> quarter of 2020, the third rebate from the Bureau of Workers' Compensation (BWC) of \$53.2 was posted as revenue and subsequent expenditure as it was transferred from the general fund into the basic city services fund, bringing the balance in that subfund to over \$74 million. Numbers reported in this report as "actuals," unless otherwise noted, include

both expenditures and outstanding encumbrances as of December 31st against that year's appropriations.

#### **Comparison to Third Quarter Projections**

**Resources:** Due to the economic effects of COVID-19 and the aforementioned BWC rebates, the revenue estimate was officially adjusted three times from the original estimate in 2020: once in June and twice in the fourth quarter. The following analysis (Table A-1) is based on the revenue estimate in effect at the end of the third quarter (which was the one issued in June 2020). Total general fund resources exceeded the City Auditor's third quarter estimate by \$84.2 million.

Taxes and assessments came in over third quarter projections by 3.5 percent, or \$25.3 million. Income tax revenues were up over \$26.3 million from the City Auditor's estimate. Property taxes were \$834,100 lower than the Auditor's third quarter estimate. At year-end, the kilowatt hour tax was \$157,628 lower than the City Auditor's estimate.

Total shared revenues came in \$973,582, or 3.4 percent, less than anticipated. The local government fund and liquor permit receipts came in lower than the estimate, while casino revenue and the cigarette tax posted higher receipts than expected.

All other revenues exceeded third quarter estimates by 50.5 percent, or \$62 million, again primarily due to the BWC rebates received. Fines and penalties, charges for service, and license and permit fees came in lower than projections, while investment earnings performed better than expected.

Overall, revenues of the three major categories exceeded third quarter projections by \$86.4 million, or 9.84 percent.

**Expenditures:** Third quarter general fund expenditure projections (which include those for Health and Recreation and Parks) totaled \$880.2 million, as compared to actual year-end expenditures of \$934 million, netting a variance of \$53.8 million.

Major variances between third quarter projections and actual expenditures are discussed below. Detailed data on budget-basis expenditures and variances can be found on Attachments A and B.

Year-End Balance: The sum of higher-than-projected revenues (\$86.4 million) and expenditures (\$53.8 million) along with lower than expected year-end encumbrance cancellations (\$1.2 million) and decreased fund transfers (\$958,709) yielded a positive year-end cash balance of \$78.3 million, or \$30.4

million higher than projected. The following chart depicts the changes in cash position since the third quarter review:

	Projected at							
		Projected at						
	3rd Quarter*	Actual	Variance					
Unencumbered Cash Balance (January 1, 2020)	\$ 40,795,000	\$ 40,795,387	\$ 387					
2020 Receipts	878,233,000	964,635,168	86,402,168					
Plus Transfers In	4,000,000	3,041,291	(958,709)					
Plus Encumbrance Cancellations	5,000,000	3,800,071	(1,199,929)					
Total Available for Appropriation	928,028,000	1,012,271,916	84,243,916					
Less 2020 Expenditures	880,178,000	934,011,958	53,833,958					
Fund Balance at 12/31/20	\$ 47,850,000	\$ 78,259,958	\$ 30,409,958					

#### **Comparison to Third Quarter Projections by Division**

- **City Council**: Year-end expenditures were \$82,062 higher than the third quarter projections. This variance is primarily driven by additional expenses in the services category.
- **City Treasurer**: Actual expenses were slightly lower than third quarter projections by \$15,611, with small savings in all categories.
- **City Auditor**: Actual expenditures were \$13,984 lower than projected at the third quarter, much of which can be attributed to savings in the personnel category.
- Income Tax: Total division expenses were \$224,090 less than anticipated at the end of the third quarter. The personnel variance of \$132,978 reflects delays in filling open positions. The remaining variance is primarily the result of planned technology-related consulting services that did not occur.
- **City Attorney**: Total expenditures were \$109,508 higher than third quarter projections, largely due to various costs in the supplies and services categories.
- Municipal Court Judges: Total expenditures were \$361,593 more than
  the third quarter projections. During the fourth quarter, an extension to the
  Franklin County Convention Center rental agreement (January to March
  2021), fell outside the CARES Act monies expiration date. Therefore, the
  funding was provided by the general fund. This expense was not
  assumed in the projections.

- Municipal Court Clerk: Total expenditures were \$98,458 lower than third quarter projections almost entirely related to savings in the personnel category.
- Civil Service Commission: Year-end expenditures were \$76,862 lower than the third quarter projection. The personnel variance of \$124,814 is the result of lower than anticipated usage of part-time personnel hours in the fourth quarter. This is partially offset by negative variances in supplies (\$6,517) and professional services (\$41,435), the latter resulting from contracts implemented to address recommendations from the Community Safety Advisory Commission.
- Public Safety Director: The positive variance in the claims category is primarily a function of a year-end accounting adjustment required to balance general fund cash following the reversal of an expenditure from a carryforward encumbrance in the amount of \$136,975. Accounting for this adjustment, total division expenditures were \$20,866 lower than anticipated at the third quarter. In personnel, delays in hiring vacant positions resulted in a positive variance of \$81,785. This is partially offset by negative variances of \$38,964 and \$25,000 in services and the transfer line, respectively, due to higher than anticipated spending on various professional services contracts and matching fund requirements for a community grant.
- Public Safety Support Services: Year-end expenditures positively varied from projections by \$149,765, primarily due to lower than anticipated personnel costs.
- Police: Actual expenditures were \$2,264,168 lower than third quarter projections. In personnel, lower than projected personnel costs in various lines resulted in a positive variance of \$1,738,986. In the supplies category, total spending was \$222,460 lower than anticipated, primarily due to savings in emergency services supplies and helicopter fuel. The division's projected needs during the fourth quarter in the services category were \$183,646 lower than projected, driven primarily by savings on repair and maintenance contracts, while total claims were \$120,578 lower than anticipated.
- Fire: Total division expenditures were \$1,821,336 higher than third quarter projections. Negative variances of \$2,002,088 and \$114,909 occurred in personnel and supplies, respectively, due to higher than projected expenditures on sworn overtime as well as health and medical supplies. These expenditures were partially offset by a positive variance of \$298,657 in services resulting from savings associated with fleet services.

- Office of the Mayor: Total expenditures for 2020 were \$30,156 less than projections at the end of the third quarter. Less than projected expenses in personnel and contracted services account for the variance.
- Office of Diversity and Inclusion: Year-end expenditures were \$75,594 higher than third quarter projections. Expenditures in the services category were \$86,437 greater than forecasted, primarily due to consulting service contracts. This variance is slightly offset by \$10,148 in personnel due to delays in filling open positions as well as minimal savings in supplies.
- **Education**: Year-end expenditures were \$1,501,322 less than projected at the end of the third quarter due to delayed legislation for third quarter Early Start Columbus payments.
- **Development Administration**: Total expenditures were \$182,685 lower than third quarter projections primarily due to lower than anticipated spending on contract services.
- **Economic Development**: Total expenditures were \$207,596 lower than third quarter projections, reflecting a variance between projected and actual spending in personnel and various service categories.
- **Code Enforcement**: Year-end expenditures were \$85,646 lower than third quarter projections, mainly due to lower than anticipated personnel costs.
- **Planning**: Total expenditures positively varied from projections by only \$6,561.
- **Housing**: Total expenditures were \$49,400 lower than third quarter projections mainly due to lower than projected expenses in personnel.
- Land Redevelopment: Year-end expenditures positively varied from projections by only \$1,343.
- Finance Administration: Total expenditures were \$45,091 higher than
  projected at the end of the third quarter. The personnel variance of
  \$22,250 is attributed to lower than projected construction management
  capital reimbursement costs. An additional variance of \$27,021 occurred
  in services due to higher than anticipated expenses in professional
  services.

- **Financial Management**: Total expenditures were \$21,837 less than projected in the third quarter mainly due to lower than projected expenses in personnel.
- **Citywide Account**: Total year-end expenditures were \$53,023,075 higher than projected in the third quarter due to the receipt, and subsequent transfer, of a Bureau of Workers' Compensation dividend to the Basic City Services subfund in December.
- Facilities Management Division: Overall expenditures were \$529,295 higher than the third quarter projection. Encumbrances in the services category reflecting various utility costs, as well as higher than expected maintenance expenditures, account for the majority of this variance.
- Department of Human Resources: Overall expenditures were \$13,663 lower than the third quarter projections. Lower than expected personnel costs from the delay in hiring vacant part-time positions resulted in a positive variance of \$11,372. Additional savings of \$2,291 reflect lower than projected spending on supplies and various service line items.
- **Neighborhoods**: At year end, the department spent \$256,536 less than third quarter projections. The variance in personnel costs of \$37,339 is due to delays in hiring and \$219,198 is due to lower than anticipated usage of supplies, other items, and services.
- **Public Service Director's Office**: Year-end expenditures were \$8,349 lower than projected, primarily due to reduced personnel costs.
- **Refuse Division**: Overall, the division spent \$734,749 more than projected in the third quarter. The services category accounted for the variance due mostly to higher than anticipated fleet costs.

#### OTHER FUNDS OVERVIEW

Major variances between third quarter projections and actual expenditures are discussed below.

- Street Construction, Maintenance, and Repair Fund: Aggregate expenditures were \$3,808,318 lower than the third quarter projections. Less than expected personnel costs of \$1,224,770 resulted from delays in filling vacant positions. Positive variances in fleet charges account for the majority of the \$1,133,035 difference in the services category. Capital expenditures were \$1,300,972 less at year end than projected at the close of the third quarter. Revenues and encumbrance cancellations into the fund were \$2,559,399 and \$706,269 more, respectively, than projected at the end of the third quarter. Subsequently, the fund ended the year with a \$27,794,196 unencumbered cash balance, or \$7.1 million more than anticipated.
- Private Construction Inspection Fund: Total expenditures were \$457,870 lower than the third quarter projection. The major source of this variance is in capital spending, with expenses coming in \$272,136 lower than budgeted. Further savings were realized in personnel with expenses \$95,681 lower than expected, supplies costs lower than estimated by \$31,530 and services costs lower than estimated by \$57,408. Revenues came in \$245,165 below the estimate, and encumbrance cancellations were \$371 lower. As a result, the fund's year-end unencumbered cash balance of \$2,034,012 was \$211,793 higher than projected.
- Construction Inspection Fund: Year-end expenditures were \$1,168,666 lower than third quarter projections. This variance was largely due to lower than projected capital spending, accounting for \$638,618 of the difference. In addition, the department posted lower than projected spending in personnel by \$286,504, the services category by \$162,494, and supplies by \$78,275. Revenues \$62,362 higher than third quarter projections, and encumbrance cancellations were \$9,544 lower. As a result of these variances, the fund's year-end unencumbered cash balance of \$6,522,754 was \$1,221,481 higher than anticipated.
- Parking Meter Fund: Total expenditures were \$8,976 higher than the third quarter projection; unassumed costs in service contracts and in Director's Office payroll were partially offset by savings in supplies and capital spending. Revenues in the fund totaled \$5,565,932, which is \$131,932 higher than was expected, and encumbrance cancellations were \$34,056 greater than the estimate. These variances resulted in an unencumbered cash balance of (\$60,614), which was \$157,011 higher than the third guarter projection.

- Health Special Revenue Fund: Total expenditures were \$948,175 higher than projected at the third quarter, largely due to unanticipated personnel costs, in addition to a shift in the allocation of grant funded staff not originally included in projections. Year-end revenues totaling \$9,436,036 were \$119,102 higher than third quarter projections. The year-end general fund subsidy totaled \$17,216,803 which was \$158,540 more than projected in the third quarter. The fund ended the year with a positive unencumbered cash balance of \$168,020.
- Municipal Court Computer Fund: Aggregate expenditures were \$72,583 more than projected in the third quarter. The Municipal Court Judges spent \$9,320 less than anticipated. The Municipal Court Clerk spent \$81,903 more than anticipated. Services costs were less than expected for the Municipal Court Judges. However, the Clerk spent \$17,523 and \$64,380 more on supplies and services respectively than anticipated. The Municipal Court Computer Fund ended the year with an unencumbered cash balance of \$1,582,438, a decrease of \$126,457 over third quarter projections. This decrease is the result of lower than projected revenue combined with more than projected spending for the Clerk.
- Recreation and Parks Operating Fund: Expenditures were \$155,842 more than projected in the third quarter. The division ended the year with a negative variance of \$503,483 in the personnel category. This amount was partially offset by a savings of \$91,345 in supplies, \$255,121 in services, and \$1,175 in other expenses. The general fund subsidy of \$42,005,613 was \$2,083,742 higher than projected at the end of the third quarter. Revenue for the operating fund, exclusive of the aforementioned general fund subsidy and hotel-motel tax revenue, was \$9,062,768, or \$751,876 higher than the third quarter projection. The fund ended 2020 with an unencumbered cash balance of \$4,002,593.
- **Development Services Fund**: Total expenditures were \$495,839 lower than the third quarter projection. Lower than anticipated professional services, direct technology contract costs, and various smaller, unanticipated savings in other services line items contributed \$367,447 to the overall variance. Actual revenues were \$1,573,817 higher than the third quarter projection, ending the year at \$22,982,587. Lastly, the fund posted \$153,014 in encumbrance cancellations, thus ending the year with an unencumbered cash balance of \$15,708,527.
- Employee Benefits Fund: The cash position of the employee benefits fund represents both the portion intended for the administration of the benefits program in the Human Resources Department as well as property and boiler insurance housed in the Finance and Management Department.

Funds intended for payment of employee benefit claims are not reflected here. Actual aggregate year-end expenditures reflected in the Human Resources Department were \$384,794 higher than third quarter projections, due to various higher than expected service line items. Actual year-end expenditures for boiler and property insurance matched third quarter projections. The fund ended the year with a zero unencumbered cash balance.

- Print and Mail Services Fund: Total fund expenditures were \$57,707 more than projected in the third quarter, mainly due to higher than expected service expenditures. Revenues totaled \$1,657,667, or \$69,179 higher than projections at the end of the third quarter. The fund ended the year with an unencumbered cash balance of \$255,341, or \$11,473 more than anticipated.
- Land Acquisition Fund: At year end, the fund had an unencumbered cash balance of \$350,779, which was \$66,703 lower than projected at the third quarter. Total expenditures were \$6,042 higher than the third quarter projection, primarily due to slightly higher than projected expenditures in supplies and services. Revenues of \$923,617 were \$65,660 lower than the third quarter projections.
- 1111 E. Broad Street Fund: Total expenditures were \$19,962 lower than projected in the third quarter, primarily due to less than anticipated repair and maintenance services expenses. Revenues for the year, exclusive of the general fund subsidy, totaled \$894,413. The fund ended the year with an unencumbered cash balance of \$36,036.
- Fleet Management Fund: Overall, fund expenditures were \$314,375 lower at year end relative to third quarter review projections. Revenues of \$34,599,086 were \$3,447,013 lower than estimated in the third quarter. Therefore, the fund ended 2020 with a negative unencumbered cash balance of \$2,219,506.
- Technology Services Fund: This fund encompasses appropriations for both the Director's Office and the Information Services Division (ISD). The Director's Office appropriation funds the administrative functions of the department, along with the direct technology expenses associated with citywide operations, while ISD provides funding for technology support staff and the indirect expense budget. Actual expenditures in this fund were cumulatively 1,945,106 lower than third quarter projections. Delays in filling vacant positions resulted in additional savings of \$298,573 compared to the forecast. In the Director's Office, a variance in technology supplies, including computer replacements, of \$400,024 was largely the result of lower than projected needs for the Department of Public Utilities and Fleet. This surplus was countered by \$605,744 in additional spend in

the services category. Much of this variance is attributed to work for essential system upgrades within the Department of Utilities.

In the ISD Division, lower than projected expenditures in the supplies category, namely general supplies, provided a positive variance of \$25,433. The division underspent projections in services by \$1,801,247 across various projects and budgetary categories, including professional services, repair and maintenance services, and maintenance of software. Revenues for the year totaled \$41,125,923 and, when combined with savings in the aforementioned expense categories, the fund ended the year with an unencumbered cash balance of \$7,096,978. This is \$1,925,758 higher than projected at the end of the third quarter.

- Water Enterprise Fund (including operating reserve fund): Expenditures in the Water Division were \$4.6 million lower than the third quarter projections. Spending was less than projected for personnel (\$363,939), supplies (\$1.8 million), services (\$2.2 million), other expenses (\$10,328), capital expenses (\$53,063), and interest payments (\$200,000). These variances may be skewed because the year-end actuals reported here include expenditures of prior year appropriations, while the third quarter projections only included expenditures and encumbrances against current year appropriations. Water system revenues were \$2,464,577 more than third quarter projections. The fund finished the year with a cash balance of \$172,677,466 which is \$7.9 million more than projected. (Expenditure variances above do not include the Department of Public Utilities Director's office.)
- Sewerage System Enterprise Fund (including operating reserve fund): Actual expenditures at year-end were 6.8% or \$18.5 million lower than the third quarter projection. Expenses were less than anticipated in all categories, with the exception of capital expenses. The largest variances were in services (\$8.1 million) and supplies (\$4.1 million). These variances may be skewed because the year-end actuals include expenditures of prior year appropriations, while the third quarter projections only included expenditures and encumbrances against current year appropriations. Sanitary system revenues were \$700,771 less than projected at the end of the third quarter. At year end, the fund had a cash balance of \$262,432,378. (Expenditure variances above do not include the Department of Public Utilities Director's office.)
- Stormwater Operating Fund (including operating reserve fund): The
  division's aggregate expenditures were \$2,907,496 less than projected at
  the end of the third quarter, mostly due to savings in the services
  category. These variances may be skewed because the year-end actuals
  include expenditures of prior year appropriations, while the third quarter
  projections only included expenditures and encumbrances against current

year appropriations. Revenues to the fund were \$56,295 lower than projected at the end of the third quarter. The year-end cash balance of \$32,991,068 is \$3,136,576 more than projected. (Expenditure variances above do not include the Department of Public Utilities Director's office.)

• Electricity Enterprise Fund (including operating reserve fund): The division's expenditures were \$4.4 million less than anticipated in the third quarter estimate. This variance was driven mostly by lower than expected spending on supplies and services in the amounts of \$1.9 million and \$3.3 million, respectively. These variances may be skewed because the year-end actuals include expenditures of prior year appropriations, while the third quarter projections only included expenditures and encumbrances against current year appropriations. Year-end revenues totaled \$83.1 million, which was \$325,149 higher than projected in the third quarter review. The year-end cash balance of \$33,536,224 is \$4,980,775 higher than projected. (Expenditure variances above do not include the Department of Public Utilities Director's office.)

# TABLE A General Fund Revenue Summary Year-to-Date Comparison December 31, 2020

CATEGORY	CATEGORY FY 2020 YEAR-TO-DATE		FY 2019 YEAR-TO-DATE		DOLLAR VARIANCE		% VARIANCE	
Income Tax	\$	699,560,529	\$	706,085,907	\$	(6,525,378)	-0.9%	
Property Tax		49,377,900		50,390,381		(1,012,481)	-2.0%	
KWH Tax		3,192,372		3,369,256		(176,884)	-5.2%

<sup>\*</sup> Due to updates to the 2019 revenues, the Unencumbered Cash Balance at 1/1/2020 does not match the Unencumbered Cash Balance at 12/31/2019 that was published in the 2019 Year End Financial Review.

<sup>\*\*</sup> The enterprise funds include the main operating funds and the operating reserve funds. The expenditure totals here will not match the expenditure totals contained in the Utilities section of the Attachment B because the Table F expenditures are by fund, while the expenditures in Attachment B are by division.

Please also note that the figures listed under the beginning and ending year unencumbered cash balances are actual cash balances for these funds (rather than unencumbered cash balances), including both operating and reserve funds for each enterprise.
