

GREENLAWN AVENUE AND THURMAN AVENUE AT HIGH STREET INTERSECTION IMPROVEMENTS

DESCRIPTION AND BENEFITS

This project consists of geometric and mobility improvements to the intersections of Greenlawn Avenue at S. Front Street and S. High Street at Greenlawn Avenue/Thurman Avenue. The road alignment will be improved so the intersection isn't offset and motorists will be able to turn left onto High Street from Thurman Ave or Greenlawn Ave. This project will include traffic signal improvements, addition of a shared use path, sidewalk, and signal interconnect. This project will also include incidental improvements such as drainage, traffic control, sediment and erosion control, waterline relocation, and maintenance of traffic.
