

# N 4th Street Bike Lane

Warren Street to East Hudson Street

Connecting several different neighborhoods, the current bike lane provides an important north-south route. The proposed improvement will move the bike lane to the other side of the on-street parking and provide protection as a safety improvement and visually narrow the roadway. 4th Street is on the Vision Zero High-Injury network and was identified in Bike Plus for improvement.

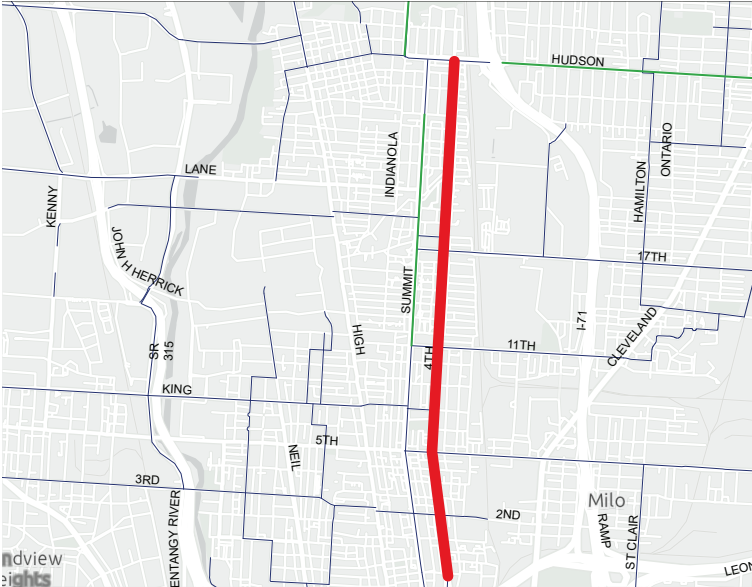

### WHAT?

**2.5** miles of protected bike lane

### WHEN?

**Fall 2025**  
anticipated start of construction

### HOW?

## Questions or comments?
