

# E 5th Ave Safety Improvements

## Wall Street to N 5th Street

In its current 4-lane road condition, 5th Avenue has problems with speeding and crashes, causing an unsafe condition for this pedestrian oriented route. The proposed improvement will narrow the road to one travel lane in each direction with a center turn lane. 5th Avenue is on the Vision Zero High-Injury Network and these improvements will improve safety in the near future.

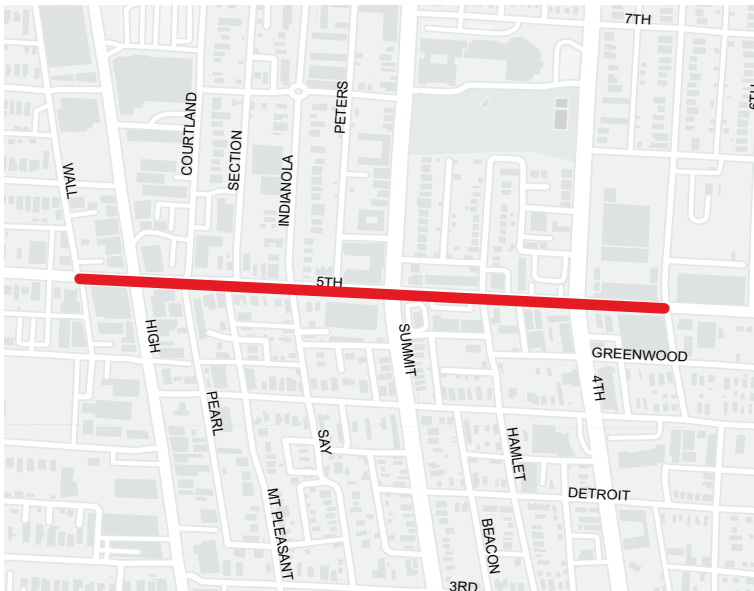

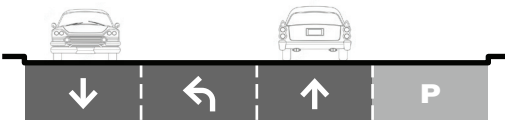

### WHAT?

**0.22** miles of safety improvements

### WHEN?

**Fall 2025**  
anticipated start of construction

### HOW?

## Questions or comments?
