Water	(P) 690473-100018	Indianola Booster Station Demolition	Indianola Booster Station Demolition.	3/10/2025(P)
Sanitary Sewers	(P) 650902-100001	Clinton Sewer District Number 3 - OSU Carmenton District Sewer Extension	This project consists of constructing a new sanitary sewer extension along Woody Hayes Drive from the Clinton SD#3 trunk sewer west of Olentangy River Road to a point west of Kenny Road. This will be designed by OSU and constructed by City of Columbus under terms of a TIF agreement between OSU and Columbus. Extension of the sewer along Kenny Rd. to Lane Ave is also anticipated.	3/12/2025(P)
Sanitary Sewers	(P) 650034-100010	Blacklick Creek Sanitary Interceptor Sewer - Shaft 1 Control Gate	This project will install a control gate at Shaft 1 of the Blacklick Creek Sanitary Interceptor Sewer (BCSIS)	3/14/2025(R)
Electricity	(P) 670878-100002	Smart Lighting Phase Two	The Division of Power began a goal of implementing Smart Lighting in the City of Columbus. This will be a multi-year goal that will ultimately connect all city streetlights to a central control system.	3/15/2025(R)
Water	(P) 690473-100021	Wilson Bridge Booster Station Improvements	This project provides for pump replacements at the Wilson Bridge booster station facility to increase capacity to meet future demands.	3/17/2025(P)
Sanitary Sewers	(P) 650870-162002	Blueprint Miller Kelton - Kent/Fairwood Permeable Pavers	This is the Blueprint Miller Kelton, Kent Fairwood area Permeable Paver project. The Kent/Fairwood area is generally bounded by Main Street to the north, Livingston Avenue to the south, Railroad tracks to the east, and Kelton Avenue to the west. This contract will install permeable pavers as part of the overall project area's green infrastructure installations. Additional project background can be referenced under CIP 650870-101202.	3/31/2025(R)

Sanitary Sewers	(P) 650870-101202	Blueprint Miller Kelton - Kelton/Fairwood	The Kent/Fairwood area is generally bounded by Main Street to the north, Livingston Avenue to the south, Railroad tracks to the east, and Kelton Avenue to the west. This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather Management Plan. Due to the sequencing of the projects, this project focuses on green infrastructure alternatives because the green infrastructure needs to be operational prior to roof drain redirection or sump pump installation. Mainline sewer lining and sump pump installation will be handled under a separate contract. This contract evaluates green infrastructure alternatives and evaluates private sanitary and storm laterals that drain sewage and stormwater from homes.	4/14/2025(R)

Storm Sewer	(P) 611040-100000	Barnett Road Stormwater Improvements Project	This project will investigate existing stormwater drainage issues along Barnett Road between E. Main Street and E. Livingston Avenue. Existing storm sewers on Barnett Road, E. Main Street, E. Mound Street, S. Hampton Road, Astor Avenue, Bolton Avenue, Towers Court N., Towers Court S., Ruby Avenue, S. Waverly Street, Brownlee Avenue and E. Livingston Avenue will be investigated to determine their condition and capacity to serve as outlets. After the investigation is complete, engineering recommendations and detailed plans will be developed to construct a new storm sewer system to mitigate stormwater drainage issues.	4/23/2025(P)
Water	(C) 690236-100139	Barnett Road Water Main Imp's	Barnett Road Water Main Imp's. is a child project to the DOSD project. The purpose of this project is to construct necessary improvements to the water distribution system along Barnett Road. The improvements identified in the scope of work will replace or rehabilitate mains that have high break histories and require frequent maintenance. This project includes replacing approximately 915 linear feet of 8-inch water mains within the project area. This water line work will be bid concurrently with the Division of Sewerage and Drainage Barnett Road project, CIP 611040-100000.	4/23/2025(P)
Sanitary Sewers	(P) 650265-100203	SWWTP CHB H51 & SDB Zoning/VAV Upgrades	This project will provide replacement of the HVAC system for Unit 51 at the Chlorine Control Building and Zoning/VAV upgrades at the Sludge Dewatering Building for the Southerly Waste Water Treatment Facility.	4/23/2025(R)

Sanitary Sewers	(P) 650870-101201	Blueprint Miller Kelton - Newton/Bedford	<p>Blueprint Miller-Kelton Newton-Bedford project area is part of the City of Columbus Integrated Solution, commonly referred as Blueprint Columbus. Blueprint Columbus is a program designed to achieve water quality and performance goals identified in the 2005 Wet Weather Management Plan (WWMP) through implementing the 4 pillars of Blueprint. The 4 pillars of Blueprint consist of the construction of green infrastructure, lateral lining, roof redirection, and sump pump installation. The Integrated Plan and 2015 WWMP Update Report proposing Blueprint Columbus was approved by Ohio EPA on December 1, 2015. This project will install permeable pavers on multiple streets within the Newton Bedford area in order to meet the Consent Order requirements of the City's 2015 Wet Weather Management Plan in order to relieve WIBs and DSRs 193 and 199 in the Miller Kelton Newton/Bedford area. In accordance with the approved WWMP, this project is designed to mitigate SSO activity and WIB to a 10-yr level of service (LOS) through source control. Newton-Bedford area has two active DSRs (#193 and #199) and several WIBs. This project will construct the green infrastructure (first pillar) and is part of multi-phased project to address SSOs and WIBs. During this phase of the project, green infrastructure will be constructed in the ROW and on public property to capture and treatment rain water. Once this phase is constructed, the City will address the private property work; including lateral lining, downspout redirection and sump pump installation.</p>	4/28/2025(R)

Storm Sewer	(P) 611707-100000	Second Avenue Sewer Improvements	This project will address flooding along Second Avenue in the Milo Grogan area, at the railroad overpass, west of the intersection with Grant Avenue. It is the intent of the City to address the flooding issues through the installation of approximately 5,000 LF of new storm sewer within the tributary area. By redirecting storm water runoff away from the existing combined sewer system that will remain this project should also reduce the incidence of basement flooding events within the neighborhood.	10/7/2025(R)
Sanitary Sewers	(P) 650870-110161	Blueprint Winthrop / Milton Area Integrated Solutions	This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather Management Plan.	10/10/2025(R)
Water	(P) 690236-100156	Shamrock Drive Area Water Line Improvements	This project provides for general rehabilitation of the Shamrock Drive Area Water Line distribution system and may include replacement of water mains which have exceeded their useful life and construction of new lines to eliminate poor fire flow capabilities and poor water quality.	10/10/2025(P)
Sanitary Sewers	(P) 650870-110164	Blueprint Tulane / Findley Area Integrated Solutions	This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather Management Plan.	11/3/2025(P)
Electricity	(P) 670799-100002	Circuit 7221 Voltage Conversion, Phase 2	Convert portions of existing 7200-V circuits to 14.4-kV.	11/3/2025(P)
Water	(P) 690384-100006	Watershed Roadway Improvements - Part 6	Watershed Roadway Improvements - Part 6. Perform full depth replacement of pavement around Griggs, O'Shaughnessy, and Hoover Reservoirs (including Cabbage Road Entrance improvements). Engineering Design and Engineering Services During Construction to be conducted under a GES contract .	11/5/2025(P)
Sanitary Sewers	(P) 650278-100001	JPWWTP Plant Wide Control System Improvements	Plant wide replacements of EIM Actuators, ABB Flow Meters, and obsolete PLCs to maintain and improve functionality of the SCADA system.	11/16/2025(P)
Water	(P) 690589-100003	Large Diameter Valve Replacement Part 4	This project provides for the repair or replacement of critical large diameter valves in the water distribution system which have failed.	11/21/2025(P)
Water	(P) 690477-100019	E. Broad South Tank Painting Improvements	E. Broad South Tank 2024 Painting Improvements	11/27/2025(R)

Sanitary Sewers	(P) 650870-110165	Blueprint Milford / Summit Area Integrated Solutions	This project will look at an integrated solution for Consent Order requirements of the City's Wet Weather. As an integral part of the City's updated plan, this project is included within the Blueprint Columbus Clintonville 3 area with a goal to reduce the amount of infiltration and inflow (I/I) into the sanitary sewer system and number of sanitary sewer overflows (SSOs) at designed sewer relief (DSR) points. The Milford-Summit project area is bound by Indianola Avenue (west), Glen Echo Creek (south), North Broadway Avenue (north), and RR tracks (east). Due to the sequencing of the projects, this project focuses on green infrastructure alternatives because the green infrastructure needs to be operational prior to roof drain redirection or sump pump installation. Mainline sewer lining and sump pump installation will be handled under a separate contract. This contract evaluates green infrastructure alternatives and evaluates private sanitary and storm laterals that drain sewage and stormwater from homes. This project is currently at the 30% design level.	1/30/2026(R)
